NEW

CALYX.

Taking inspiration from both our ski and cycling heritage to create a truly multi-functional helmet, the new Calyx is truly multi-functional, keeping you protected whether skiing, mountaineering or cycling.

DETAILS_

MIPS Evolve
Rotational impact protection is enhanced through the inclusion of the trusted Mips Evolve system.

Dual earpad clips
Two attachment clips on each earpad keeps them more secure. The foldable pads are highly flexible and can be folded inwards to take less space for storage and transportation.

Neck Warmer
A fleece-lined neck warmer in a matching color to the helmet is included with purchase.

Dual-density Liner
Two densities of EPS liner are used, giving extra protection in the zones where most impacts occur.

ABS Shell
The ABS shell has exceptional strength, durability and impact resistance. Different material thicknesses are used across the helmet to

Retractable Fit System
The fit system can be pushed into the helmet so it takes less space when not in use – ideal for storage and transport.

XS/ S

NEW

CALYX CARBON.

Exceptionally lightweight and giving protection for a range of activities, the Calyx Carbon is scaled back for the ultimate performance when weight and durability are what matters most.

DETAILS_

Carbon fiber outer shell
The carbon fiber outer shell is both highly durable and exceptionally lightweight.

Dual-density Liner
Two densities of EPS liner are used, giving extra protection in the zones where most impacts occur.

Dual earpad clips
Two attachment clips on each earpad keeps them more secure. The foldable pads are highly flexible and can be folded inwards to take less space for storage and transportation.

Neck Warmer
A fleece-lined neck warmer in a matching color to the helmet is included with purchase.

ABS Shell
The ABS shell has exceptional strength, durability and impact resistance. Different material thicknesses are used across the helmet to

OBEX BC MIPS HEDVIG WESSEL ED.

Featuring a design inspired by the mountains and developed by Hedvig Wessel, the Hedvig Edition Obex BC Mips gives both inspiration and protection.

DETAILS_

MIPS Evolve

Mips Evolve enhances rotational impact protection.

twICEme® NFC Medical ID

The twICEme® NFC Medical ID gives instant access to vital medical info and emergency contact details.

RECCO® Reflector

A RECCO® Avalanche Rescue Reflector helps rescue services easily and quickly locate you.

EPS Liner

The EPS liner gives optimized, lightweight protection.

Aramid Panels

Aramid panels improve structural strength and enhance penetration protection.

Dual material shell

An outer PC shell featuring a top section of ABS gives the ultimate balance of strength and durability at a low weight.

360° Fit System

The 360° adjustment system makes it easy to find a comfortable, secure fit without changing padding.

XS/ S 51-54CM **500g**

M/ L 55-58CM **550g**

XL /XXL 59-62CM **600g**

ARTICLE NO. 10210

CERT. CE EN 1077-B, ASTM F2040

NC

SKULL DURA JR MARCO ODERMATT ED.

Giving junior racers access to the safety technologies found on adult racing helmets, the Skull Dura JR ensures younger skiers can benefit from protection tailored for racing.

DETAILS_

Race Lock

The Race Lock integrated adjustment system makes it easy to find a comfortable and secure fit, and does not interfere with the race tuck.

Multi-impact protection

A multi-impact EPP liner ensures the helmet keeps you protected.

ABS/PC shell

An outer shell of both ABS and PC gives durability and dent resistance at a low weight.

Ear Chambers

Special chambers around the ears ensure balance is unaffected by the helmet and limit hearing interference.

Race certified

The helmet is certified to FIS RH2013 standards, meaning it can be used in FIS-sanctioned race events.

XS/ S 51-54CM **700g**

M/ L 55-58CM **750g**

DISCOVER A SEAMLESS FIT

OBEX MIPS AND NEXAL

A natural choice both on- and off-piste, the Nexal's frame outriggers ensure the goggle sits even closer to a helmet for a feeling of complete unity.

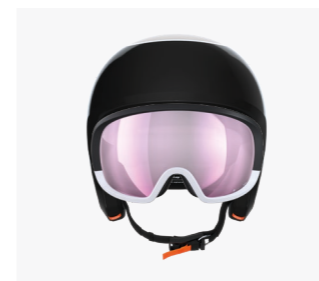

MENINX AND ZONULA

Optimized to keep focus on what is necessary, the Meninx and the Zonula Clarity together reach the epitome of what it means to be simply complicated.

FORNIX AND FOVEA

Created to work together everywhere on the mountain, the Fovea's exceptional field of view pairs perfectly with the lightweight Fornix for all-day, all-mountain use.

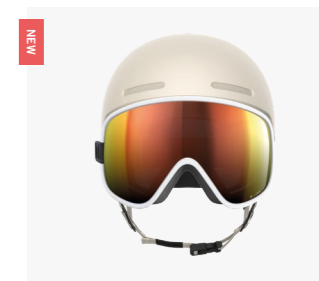

SKULL DURA COMP AND FOVEA COMP

Find ultimate focus and protect all the senses with this combination tailored for the specific needs of racers.

OBEX PURE AND OPSIN

Pare back all that is unnecessary and find a new purity. The Obex Pure and Opsin are the ideal combination for an uncomplicated experience.

CALYX AND VITREA

As effective while mountaineering as while skiing, the Calyx and Vitrea are the ultimate choice for ultimate functionality, adaptability and packability.

GREAT ALONE, BETTER TOGETHER

To enhance performance and protection, we always design our helmets and sunglasses so they have a seamless fit. The way in which sunglasses and helmets will be used together affects their design so that the specific needs of different kinds of rider can be met.

NEW + ADDITIONAL LENS

VITREA

Being able to have the right lens for the conditions, not for the day or the hour, but for the moment, is the luxury the Vitrea goggles give. The quick-change lens system can be operated while wearing gloves and while the goggles are still on your face, allowing you to explore the mountains with the best possible vision in all conditions, always.

ARTICLE NO. 40830

HIGHLIGHTS

- Easy-change lens system works while wearing the goggles and can be operated with gloves on.
- Toric lens shape
- Clarity by POC lens technology

LENS BY

CLARITY

DETAILS

Easy-change lens

A double-locking quick-release switch and hinge mechanism on the goggle frame makes it possible to change lenses without removing the goggles and while wearing gloves.

Clarity lens

The supplied lens features Clarity by POC lens technology for an enhanced visual experience.

Extra-large field of view

The frame shape ensures an extra-wide field of view and extends further down the cheek for uninterrupted peripheral vision.

Anti-fog treatment

An anti-fog treatment on the inner lens helps reduce internal fogging.

Toric lens

The shallower angle of this toric lens, coupled with the oversize frame, gives exceptional vision in the lower periphery.

Bio-based and recycled frame materials

The frame is constructed from both bio-Nylon and recycled TPU, giving strength and flexibility.

Fabric-covered face foam

A soft fabric covering over the face foam enhances comfort next to your skin and keeps the foam protected for improved durability.

Silicone grippers

Silicone grippers on the inside of the strap help keep the goggles secure against a helmet.

Ri-Pel anti-dirt and -water treatment

The Ri-Pel hydrophobic and oleophobic treatment protects from dirt, water, sweat, salt, oil and dust, and also makes the lenses easier to clean. It features on all lenses apart from the Clarity Intense Partly Sunny Orange, which features a hydrophobic coating only.

Complete UV protection (UV400)

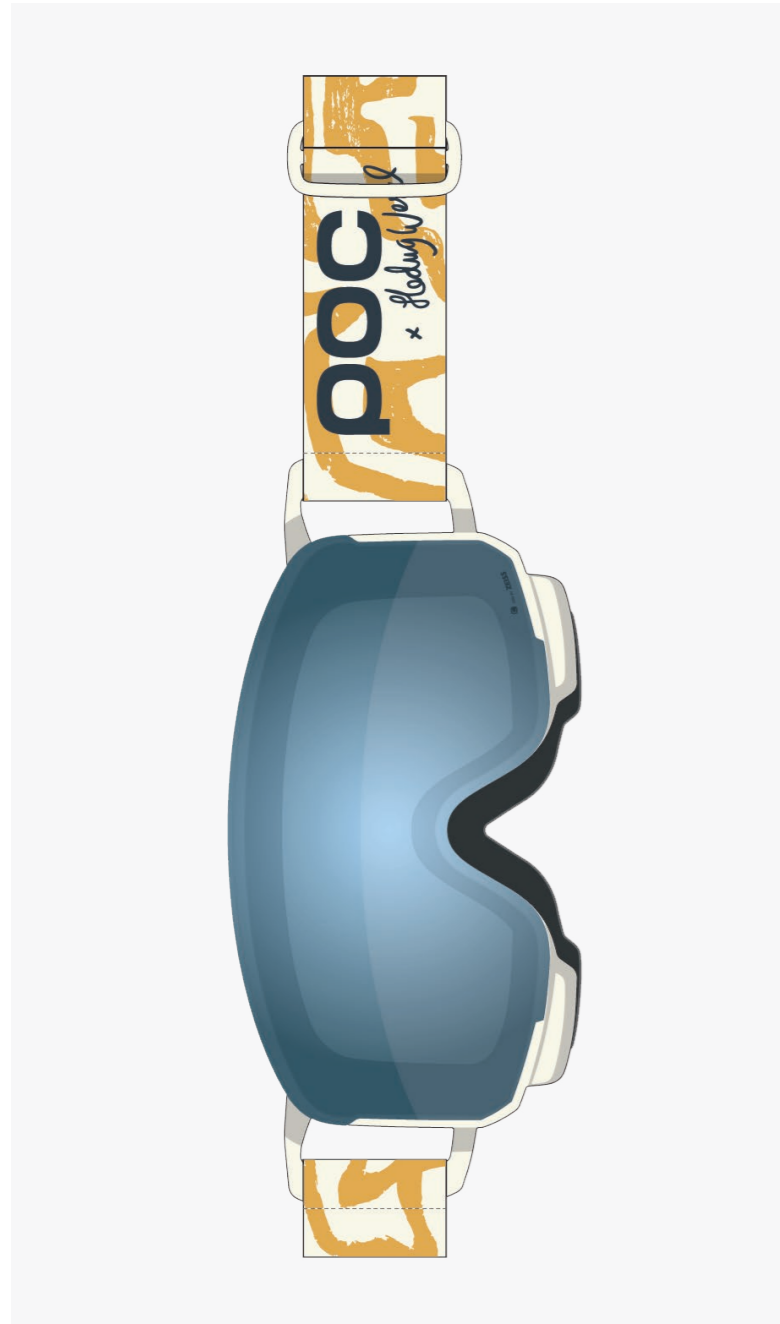

All lenses offer complete UVA and UVB protection (UV400).

Anti-scratch treatment

An anti-scratch treatment on the outer lens reduces the risk of surface damage, helping ensure you always have uninterrupted vision.

INCLUDED

- + Soft carrying pouch/cleaning cloth.

NEXAL HEDVIG WESSEL ED.

Designed to awaken a desire or exploration, the Hedvig Wessel Collection takes inspiration from her conquering of another of Norway's peaks, Store Skagastølstind, with all designs coming directly from paintings created after her adventure.

DETAILS_

Clarity
The supplied lens features Clarity technology.

Spektris mirror
The unique Spektris mirror coating is engineered to harmonize with the Clarity lens.

Cylindrical Lens
The cylindrical lens sits an even distance from

the face for minimal optical distortion.

Zygomatic Bone Covers
Covers underneath the frame increase protection from wind chill.

Ri-Pel treatment
Treatment protects from dirt, water, sweat, salt, oil and dust, and also makes the lenses easier to clean.

Anti-fog treatment
An anti-fog treatment on the inner lens helps reduce internal fogging for clear vision as the intensity rises.

Complete UV Protection

Triple-layer face foam

ZONULA RACE MARCO ODERMATT ED.

As a child Marco Odermatt wanted nothing more than to wear the same kit as his racing idols. Now, he is giving young racers who share his dreams the chance to do just that. The Marco Odermatt Edition features the exact same lion design as on his own race kit.

DETAILS_

Interchangeable Lens
It's easy to swap the Clarity lenses to ensure you have the best vision in the widest range of light conditions.

Clarity Lens
The supplied lens features Clarity technology to enhance the visual experience.

Extra-wide field of view
The large lens ensures optimal peripheral vision.

Toric Lens
The Toric lens shape minimizes distortion to give optimum vision.

Bio-based materials
The frame and strap are constructed from 47% biobased materials.

Silicone grippers
Silicone grippers on the inside of the strap help keep the goggles secure.

Ri-Pel treatment
The Ri-Pel hydrophobic and oleophobic treatment protects from dirt, water, sweat, salt, oil and dust, and also makes the lenses easier to clean.

CLARITY SUNGLASSES

Clarity™ is POC's innovative lens program. Designed to control the color spectrum for enhanced contrast and color definition. All combinations of tints, mirrors and technology have been carefully selected to minimize glare and to utilize the full effect of the base tint benefits. All to ensure vision can stay sharp when riding in extreme conditions, even the changing ones.

CLARITY ROAD

Clarity Road lenses have specific tints that are optimized for the road environment. The lenses increase contrast on the road surface for sharper definition and allow the rider to react earlier to surface irregularities.

CLARITY TRAIL

Clarity Trail lenses have tints which are specifically designed to enhance contrast and boost trail associated colors, such as green and brown. MTB riding is often subject to abrupt changes in light and shadow and as such the lenses are optimized for variable light conditions.

CLARITY DEFINE

Clarity Define lenses are optimized for all-round use, giving sharper contrast and definition across a broad range of colours and light conditions.

ABBREVIATIONS & MEASUREMENTS: 1" = 2,5 cm, 1 cm = 0.4", cir. = circumference

HELMETS

ABS: Acrylonitrile Butadiene Styrene

A very hard plastic used in the helmet shell. It is widely known for its impact resistance, strength and durability.

EPP: Expanded Polypropylene

A helmet liner material that can withstand multiple impacts, dependent on the severity of the impact. EPP liners tend to be thicker than EPS liners.

PC: Polycarbonate

Stiff and strong material used in the helmet shell. It is well suited to thermoforming to give a secure bond with the helmet liner.

EPS: Expanded Polystyrene

The traditional helmet liner material found in most helmets (from all manufacturers). Will compress under force, and tends to only be suitable for one crash. Lighter than EPP. EPS liners can be thinner than EPP liners because EPS has better impact resistance in terms of volume of material used.

ABS/PC

A blend of ABS and PC used in some of our helmet shells. It provides an ideal balance of durability and stiffness.

Aramid

Exceptionally strong synthetic fibers that provide unsurpassed protection against penetration and enhance the structural stability of a helmet.

HELMETS AND ARMOR

VPD: Visco-elastic polymer dough

VPD is our protective material, visco-elastic polymer dough. Chiefly used in body armor but also in some helmets. VPD retains its impact absorption ability regardless of number of impacts. VPD is malleable and shapes to the form of your body for a unique and flexible fit, only hardening on impact for enhanced protection.

APPAREL

Dyneema®

Dyneema® is one of the world's strongest materials. Around 15x stronger than steel, the material gives exceptional laceration protection. A new kind of Dyneema® with stretch, developed specifically for POC, allows us to create flexible armor.

GOGGLES

TPU: Thermoplastic Polyurethane

A flexible and durable plastic well suited to very cold temperatures, making it ideal for goggle frames.

CP: Cellulose Propionate

Highly durable plastic well suited to low temperatures and with excellent optical properties.

Grilamid

Lightweight, highly impact resistant, strong and weather resistant plastic, making it suitable for goggle and sunglasses frames.

PC: Polycarbonate

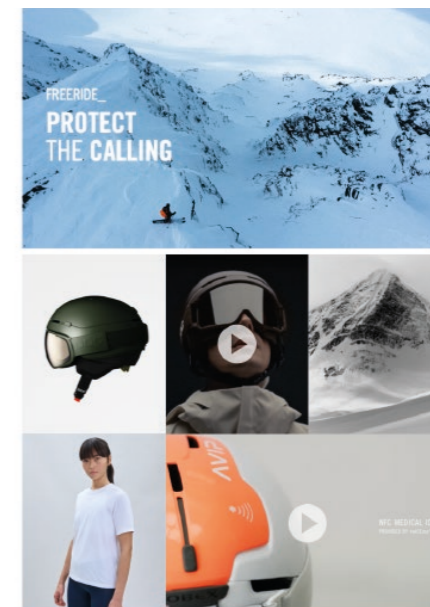

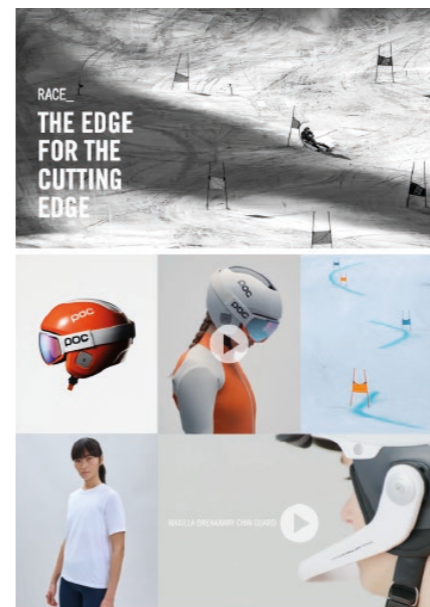

Strong, highly durable material with superior optical properties, making it well suited to use in goggle lenses.
