LEKI

VISION

The best
pole and glove
in the world
for everybody.

The pink story began in 2015: Open day at the LEKI production facility in Tachov. Czech biathlete Gabriela Soukalová also participated. During the factory tour, old pink color proofs caught her eye and, without thinking twice, she asked „What about pink poles?“ Our Product manager and Racing director Christian Nordhaus couldn't get the question out of his head. On his way back home, he decided to surprise the Czech superstar with a prototype at the worldcup in Ruhpolding. The real effect of it only became clear after the TV broadcast, as Christian recounts: „My phone was ringing off the hook, everyone was so excited about the pink poles.“ Two years later, pink was no longer a women's thing. „When Johannes Klæbo approached me regarding the pink poles, I was a little irritated at first, but also happy.“ For Klæbo there is more behind the pink poles: "With my pink poles, I hope to inspire other people to be the way they want to be and do their own thing. Pink is more than just a color to me." Meanwhile, pink also plays a role in alpine skiing. „Many athletes go for pink, my racing colleague has done a good job here,“ reports alpine racing boss Hans-Peter with a twinkle in his eye. The next pink pole is in the starting blocks in winter 23/24 – the new Spitfire!

Die pinke Story führt zurück ins Jahr 2015. Tag der offenen Tür in der LEKI Produktionsstätte in Tachov. Mit dabei die tschechische Biathletin Gabriela Soukalová. Bei der Werksbesichtigung fielen ihr alte pinke Farbdrucke ins Auge und spontan kam ihr eine Idee: „Wie cool wären pinke Rennstöcke?“ Auf dem Heimweg dachte Produktmanager und Rennsportleiter Christian Nordhaus noch einmal über ihre Idee nach und dachte sich dann, warum eigentlich nicht. Heimlich wurden ein paar Andrucke gemacht und bei der Biathlon Verfolgung in Ruhpolding überraschte Christian den tschechischen Superstar dann mit einem pinken Stock. Nach der TV-Übertragung schlug das Ganze größere Wellen als zuvor angenommen, wie Christian erzählt: „Mein Handy hat ununterbrochen geklingelt, alle waren begeistert.“ Das Ganze nahm seinen Lauf. Zwei Jahre später war pink dann kein reines Frauenthema mehr. „Als Johannes Klæbo bezüglich der pinken Stöcke auf mich zukam, war ich erst perplex und habe mich dann natürlich sehr gefreut.“ Auch für Klæbo steckt mehr hinter den pinken Stöcken: „Ich hoffe mit meinen pinken Stöcken andere Menschen zu inspirieren, so zu sein, wie sie wollen und ihr eigenes Ding durchzuziehen. Pink ist für mich mehr als nur eine Farbe.“ Mittlerweile spielt das Thema pink auch eine Rolle beim alpinen Skisport. „Auch hier setzen viele Athleten auf pink, mein Rennsportkollege hat hier gute Arbeit geleistet“, berichtet Alpin-Rennchef Hans-Peter mit einem Augenzwinkern. Nun steht im Winter 23/24 der nächste pinke Stock in den Startlöchern – der neue Spitfire!

THE STORY OF PINK.

HIGH-END PRODUCTS

We work passionately to create long-lasting products with exceptional value. It's our premise to combine high-end performance with security and comfort. We consult experts and professional athletes during the development process to guarantee LEKI's unique level of quality. More than 250 patents are proof of LEKI's level of innovation and quality.

Wir arbeiten leidenschaftlich daran, langlebige Produkte mit außergewöhnlichem Wert zu schaffen. Es ist unsere Prämisse, High-End-Leistung mit Sicherheit und Komfort zu kombinieren. Wir konsultieren Experten und Profisportler während des Entwicklungsprozesses, um das einzigartige Qualitätsniveau von LEKI zu gewährleisten. Mehr als 250 Patente sind ein Beweis für das Innovations- und Qualitätsniveau von LEKI.

MADE IN EUROPE

The majority of our products are produced in our own factory in the Czech Republic. The biggest advantage of the European location is the local supply chain and quick shipment. This eliminates long delivery routes. We can control the complete supply chain in every step and down to the finest detail.

Der Großteil unserer Produkte wird in unserer modernen Fertigungsstätte in Tschechien hergestellt. Die größten Vorteile des europäischen Standorts sind die lokalen Lieferketten und der schnelle Versand. Dadurch entfallen lange Lieferwege und wir können die gesamte Lieferkette bis ins kleinste Detail steuern.

PRODUCTION STANDARDS

For many years, we have invested in the most modern production equipment with the best available technology and energy efficiency. We are proud to have the highest standards in terms of health and safety for our employees and environmental impact of production.

Seit vielen Jahren investieren wir in modernste Produktionsanlagen mit der besten verfügbaren Technologie und Energieeffizienz. Wir sind stolz darauf, die höchsten Standards in Bezug auf Gesundheit und Sicherheit für unsere Mitarbeiter und die Umweltauswirkungen der Produktion zu haben.

SOCIAL RESPONSIBILITY

For years LEKI has been supporting regional social associations as well as international projects. We attach great importance to the High Five Foundation, which supports athletes with life-changing injuries as a result of mountain sports during rehabilitation. As a global brand it is important to us to take over responsibility on a local level. With the support of charity and events we contribute to the success of the region we are operating from.

LEKI unterstützt seit vielen Jahren sowohl regionale Verbände als auch internationale Projekte. Am Herzen liegt uns die High Five Foundation, eine Organisation, die Bergsportler nach lebensverändernden Verletzungen bei der Rehabilitation unterstützt. Als globale Marke ist es uns aber auch wichtig, auf lokaler Ebene Verantwortung zu übernehmen. Mit der Unterstützung von Wohltätigkeitsorganisationen und Veranstaltungen tragen wir zum Erfolg der Region bei, in der wir tätig sind.

SERVICE & REPAIR

Even after many years of wear and tear, sometimes decades, we do everything possible to extend the life of our products. With our worldwide network of service and repair center we can clean, maintain and repair generations of poles. LEKI guarantees to provide spare parts for at least 10 years for all products.

Mit einem weltweiten Netz an spezialisierten Service-Centern können Produkte nach jahrelanger intensiver Nutzung repariert und wiederinstandgesetzt werden. Teil der LEKI-DNA sind verlässliche und langlebige Produkte. Bis zu zehn Jahre werden die Ersatzteile durch LEKI bevorratet.

FX FOLDABLE AND EXCHANGEABLE.

WATCH
HOW IT WORKS!

<https://youtu.be/KCv9sgNGIRO>

Reliable and durable products have always been a large part of the LEKI DNA. The FX technology is the next step in service and repair. LEKI has the patented technology to replace the lower and lowest middle section 3 within minutes – quick and easy, everybody can do that. This will be the natural extension of the life cycle of your LEKI product.

Zuverlässige und langlebige Produkte waren schon immer ein großer Teil der LEKI-DNA. Die FX-Technologie ist der nächste Schritt in Richtung Service und Reparatur. Mit der patentierten FX-Technologie lassen sich das Unter- und das unterste Mittelteil drei innerhalb weniger Minuten austauschen – schnell und leicht für jedermann. So wird der Lebenszyklus deines LEKI Produkts auf einfache Weise verlängert.

GUIDE YOUR WAY.

AERGON AIR

For maximum ergonomic support for every ski touring adventure. Guidance, control and comfort like no other grip.

Für den maximalen ergonomischen Support bei jedem Skitouring Abenteuer. Führung, Kontrolle und Komfort wie bei keinem anderen Griff.

Hollow core

Combination of lightweight construction with large, supportive surfaces that meet all the ergonomic requirements of your hand.

Kombination aus Leichtbauweise mit großen, unterstützenden Flächen, die allen ergonomischen Anforderungen deiner Hand entsprechen.

Ergonomic top

Optimal support surface during steep switchbacks in the ascent.

Optimale Stützfläche bei steilen Spitzkehren im Aufstieg.

Diamond Shaped Surface

Maximum grip zone with a fully rubberized back.

Maximale Grifffläche mit gummiertem Rücken.

NORDIC SHARK

100 % grip-strap technology developed for cross-country skiing. More performance through precise guidance, control and power transmission.

100 % für Langlauf entwickelte Griff-Schlaufen-Technologie. Geschwindigkeit durch exakte Führung, Kontrolle und Kraftübertragung.

Quick Release Button

Fast and easy click out under any conditions.

Schnelles und einfaches Ausklicken unter allen Bedingungen.

Shark Access hook

Fast and easy click-in, with Shark-Loop.

Schnelles und einfaches Einklicken mit dem Shark-Loop.

Speed Shape

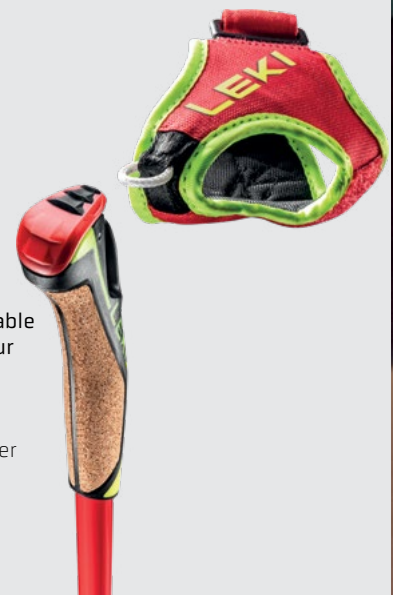

Guiding your poles precisely during high-speed movement through ergonomic design and support.

Präzise Führung der Stöcke bei schnellen Bewegungen durch ergonomische Unterstützung.

Dura Rail

Abrasion resistant and durable rail to extend the life of your grip.

Abriebfeste und haltbare Schiene zur Verlängerung der Lebensdauer des Griffs.

PUSHING LIMITS.

TURN IT UP.

TRIGGER 3D

Innovative, three-dimensional release with the Trigger 3D, which gives you maximum safety.

Innovative, dreidimensionale Auslösung mit dem Trigger 3D, der dir maximale Sicherheit bietet.

Release Button

Easily click out the straps by pressing the enlarged trigger release button.

Einfaches Ausklicken der Schlaufen durch Knopfdruck der vergrößerten Trigger-Auslösetaste.

3D Thorn

Trigger spectrum of 220° due to the thorn of the intelligent Trigger 3D system.

Auslösespektrum von 220° durch den 3D-Dorn des intelligenten Trigger 3D-Systems.

Four Finger Syncline

Comfortable grip position without slipping thanks to four-finger syncline design.

Komfortable Griffposition ohne Verrutschen dank Vier-Finger-Mulden Konstruktion.

Spring

Three-dimensional release force due to innovative spring system.

Dreidimensionale Auslösekraft durch innovatives Federsystem.

ARE YOU MADE FOR MORE?

New series of racing gloves, 100% developed for alpine racing and perfectly adapted to the individual disciplines in every detail.

FLEX MAPPING

Control your hands and poles with maximum flexibility and precision through specific construction of the flex mapping. Great freedom of movement and wearing comfort without compromising on safety features.

Optimale Kontrolle deiner Hände und Stöcke mit maximaler Flexibilität und Präzision durch die spezielle Konstruktion des Flex Mappings. Hohe Bewegungsfreiheit und Tragekomfort ohne Kompromisse bei den Sicherheitsmerkmalen.

Neue Rennhandschuhserie, zu 100% für den alpinen Rennsport entwickelt und auf die einzelnen Disziplinen in allen Details abgestimmt.

Speed panel

Cut through the gates by deflecting the impact. The fully integrated flexible TPU panel covers the central knuckle area and provides optimal damping. The flowing shape combines hand ergonomics and dynamics.

Maximale Geschwindigkeit durch perfektes Ableiten der Torstange durch den Handschuh. Das voll integrierte flexible TPU Panel umschließt den zentralen Knöchelbereich und sorgt für beste Dämpfung. Die fließende Formgebung vereint Handergonomie und Dynamik.

TRIGGER SYSTEM

Perfect connection between glove and pole for maximum control, comfort and security

Perfekte Verbindung zwischen Handschuh und Stock für maximale Kontrolle, Komfort und Sicherheit.

Racing

ARE YOU MADE FOR MORE?

Mikaela Shiffrin is an impressive athlete – on and off the slopes. Setbacks are part of a long career, the question is how to deal with it. After disappointing Olympics and a lot of public pressure, Mikaela came back stronger than ever and prevailed as overall World Cup winner in a thrilling season finale. Even off the slopes she advances her views and also stands up for others. An athlete who is a perfect representation of the question: "Are you made for more?"

Mikaela Shiffrin ist eine beeindruckende Athletin – auf der Piste und auch abseits davon. Rückschläge gehören in einer langen Karriere dazu, die Frage ist wie man damit umgeht. Nach enttäuschenden olympischen Spielen und viel öffentlichem Druck, kam Mikaela stärker als je zuvor zurück und setzte sich in einem spannenden Saisonfinale als Gesamtweltcupsiegerin durch. Auch neben der Piste erhebt sie ihr Wort und scheut nicht davor sich für andere einzusetzen. Eine Athletin, die mehr als alles andere für die Frage steht: „Are you made for more?“

Alpine EASY MEANS PERFECT.

There are probably few people in the world who love skiing as much as 34-year-old Marcus Caston. For this American skiing means "life". He sees his enthusiasm for the sport as a way to let off steam and get creative. "Skiing allows me to be completely unrestricted and feel free."

Wahrscheinlich gibt es wenige Menschen auf dieser Welt, die Skifahren so sehr lieben wie der 34-Jährige Marcus Caston. Skifahren bedeutet für den Amerikaner „Leben“. Seine Begeisterung für den Sport sieht er als eine Möglichkeit, sich auszutoben und kreativ zu werden. „Beim Skifahren kann ich mich völlig uneingeschränkt bewegen und mich frei fühlen.“

Freeride WHAT'S YOUR PLAYGROUND?

Madison Rose was born in the hills of Michigan, but moved to Utah in 2013 to pursue her goals as a skier. After competing as an alpine ski racer, she ultimately found her passion and calling in freeriding. „There is nothing better in this world than a bluebird day in deep snow.“

Madison Rose ist in Michigan aufgewachsen und später nach Utah gezogen, um ihr großes Ziel, Skifahrerin zu werden, zu verfolgen. Nach einigen Wettkämpfen im alpinen Skirennsport hat sie schließlich ihre Leidenschaft und Berufung im Freeriden gefunden und es seitdem keinen einzigen Tag bereut. „Es gibt nichts Schöneres auf der Welt als einen Tag mit blauem Himmel im Tiefschnee.“

Touring GUIDE YOUR WAY.

The 25-year-old ski mountaineer Alois Kunz from Chiemgau is always looking for new challenges. When a trip to Mount Everest was not possible due to covid, Mount Everest was brought home. Together with his brother, he climbed his local mountain, the Kampenwand, with touring skis – ten times in a row. The only way they finally reached the necessary 8848 meters of altitude.

Der 25-jährige Skibergsteiger Alois Kunz aus dem Chiemgau ist immer auf der Suche nach neuen Herausforderungen. Als eine Reise zum Mount Everest coronabedingt nicht möglich war, wurde der Mount Everest kurzerhand nach Hause geholt. Zusammen mit seinem Bruder bestieg er mit Tourenski seinen Hausberg, die Kampenwand – und das gleich zehnmals in Folge. Nur so kommt man schließlich auf die nötigen 8848 Höhenmeter.

POLE OVERVIEW

Cross Country PUSHING LIMITS.

Over ten years ago, we discovered a 14-year-old Norwegian whose incredible talent was not recognized by everyone at first glance. It was Johannes Klæbo, today one of the most successful cross-country athletes in the world. Johannes has achieved everything that can be achieved in cross country. The big question for the new season: What's next, is he made for more?

Vor über zehn Jahren entdeckten wir einen 14-jährigen Norweger, dessen unglaubliches Talent auf den ersten Blick nicht von allen erkannt wurde. Es war Johannes Klæbo, heute einer der erfolgreichsten Skilangläufer der Welt. Johannes hat alles erreicht, was man im Langlauf erreichen kann. Die große Frage zur neuen Saison: Was kommt jetzt? Is he made for more?

MADE IN EUROPE

"Handmade in Europe" means short transport routes, less environmental impact, support of local companies, and exceptional quality. LEKI touring gloves are developed and designed in Germany, and each glove is sewn by hand and assembled in a modern factory in Hungary. The 100% premium goatskin comes from Switzerland and the fabrics are manufactured in Italy. LEKI Touring gloves, a European masterpiece!

"Handmade in Europe" steht für kurze Transportwege, weniger Umweltbelastung, Unterstützung lokaler Unternehmen und vor allem außergewöhnliche Qualität. Die LEKI Tourenhandschuhe werden in Deutschland konzipiert und designt und in Ungarn in einer modernen Fabrik von Hand genäht und zusammengesetzt. Das Premium-Ziegenleder kommt aus der Schweiz, die Stoffe werden in Italien hergestellt.

RACING / ALPINE / FREERIDE GRIPS

TRIGGER 3D

Based on the proven Trigger S Technology More control due to the direct connection between the glove and pole, improved operating comfort with rapid clicking in and out and a larger triggering angle thanks to the patented Trigger 3D System technology. *Basierend auf der bewährten Trigger S Technologie. Mehr Kontrolle durch direkte Verbindung zwischen Handschuh und Stock, verbesserter Bedienkomfort durch schnelles Ein- und Ausklicken und größerem Auslöswinkel dank patentierter Trigger 3D System-Technologie.* Basé sur la technologie éprouvée du Trigger S. Plus de contrôle grâce à la connexion directe entre le gant et le bâton, une plus grande facilité d'utilisation grâce à un encliquetage et un décliquetage rapides et un angle de déclenchement plus important grâce à la technologie brevetée Trigger 3D System. *Basato sulla comprovata tecnologia Trigger S. Un controllo maggiore grazie alla connessione diretta tra il guanto e il bastoncino, migliore facilità d'uso grazie allo scatto rapido per mettere e togliere e maggiore angolo di rilascio grazie alla tecnologia brevettata Trigger 3D System.*

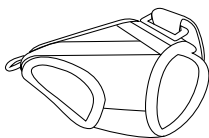

TRIGGER S

The Trigger S provides perfect traction thanks to the very slim racing grip and maximum hold through the extra soft surface thanks to the Trigger S trigger technology. *Der Trigger S sorgt für perfekten Kraftschluss dank sehr schlankem Race-Griff und maximalem Grip durch die extra weiche Oberfläche durch Trigger S Auslösetechnologie.* Le Trigger S assure une connexion par friction parfaite grâce à la poignée de course très fine et une prise maximale grâce à la surface extra souple avec la technologie de libération Trigger S. *Trigger S assicura una trazione perfetta grazie all'impugnatura da corsa molto sottile. Massima presa grazie alla superficie extra morbida con tecnologia di rilascio Trigger S.*

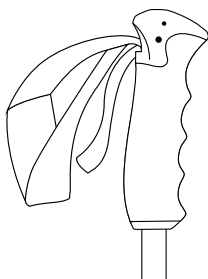

TRIGGER SYSTEM

Glove system strap or extra strap to fit any Trigger grip. *Handschuh-Systemschlaufe oder extra Schlaufe passend für alle Trigger-Griffe.* Système de dragonne de gant ou dragonne supplémentaire convenant à toutes les poignées Trigger. *Passante del sistema di guanti o passante extra adatto a tutte le impugnature Trigger.*

PAS GRIP

Perfect traction thanks to the slim racing geometry and maximum hold due to the soft surface. Equipped with the PA Safety System. *Perfekter Kraftschluss dank schlanker Renngeometrie und maximalem Grip durch extra weiche Oberfläche. Ausgestattet mit dem PA Safety System.* Une connexion par friction parfaite grâce à une géométrie de course étroite et une adhérence maximale grâce à une surface extra souple. Équipé du système de sécurité PA. *Aderenza perfetta grazie alla sottile geometria da corsa e grip massimo grazie alla superficie extra morbida. Equipaggiato con il sistema di sicurezza PA.*

CROSS COUNTRY GRIPS

NORDIC SHARK

100% grip-strap technology developed for cross-country. More steering, control and power transfer, as well as improved operation. *100 % für Langlauf entwickelte Griff-Schlaufen-Technologie. Mehr Führung, Kontrolle und Kraftübertragung sowie verbesserte Bedienbarkeit.* Technologie de dragonne de poignée développée à 100% pour le ski de fond. Plus de guidage, de contrôle et de transmission de puissance ainsi qu'une meilleure opérabilité. *Tecnologia 100% grip-loop sviluppata per la sci di fondo. Più guida, controllo e trasmissione di potenza, e un funzionamento migliore.*

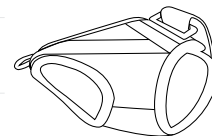

SHARK 2.0

Versatile multisport grip for perfect energy transfer and easy handling. *Vielseitiger Multisport-Griff für perfekte Kraftübertragung und einfache Handhabung.* Poignée multisport polyvalente pour une transmission parfaite de la puissance et une manipulation aisée. *Impugnatura versatile multisport per un perfetto trasferimento di forza senza rinunciare alla comodità.*

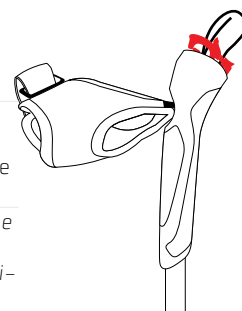

SHARK SYSTEM

Glove system strap or extra strap to fit any Shark grip. *Handschuh-Systemschlaufe oder extra Schlaufe passend für alle Shark-Griffe.* Système de dragonne de gant ou dragonne supplémentaire convenant à toutes les poignées Shark. *Passante del sistema di guanti o passante extra adatto a tutte le impugnature Shark.*

NORDIC FRT GRIP

The Nordic FRT Grip offers the best power transfer and individual fit thanks to the lockable connection and special anti-slip construction. *Der Nordic FRT Grip bietet beste Kraftübertragung und individuelle Anpassung dank fixierbarer Verbindung und spezieller Anti-Slip-Konstruktion.* Le Nordic FRT Grip offre une meilleure transmission de la puissance et un réglage individuel grâce à une connexion fixe et une construction spéciale antidérapante. *Nordic FRT Grip offre la migliore trasmissione di potenza e la regolazione personalizzata grazie alla connessione fissabile e alla speciale struttura antiscivolo.*

TOURING GRIPS

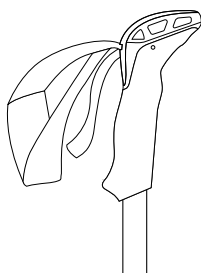

AERGO AIR

For maximum ergonomic support when ski touring. Steering, control and comfort like no other grip.

Für maximalen ergonomischen Support beim Skitouring. Führung, Kontrolle und Komfort wie bei keinem anderen Griff.

Pour un soutien ergonomique maximal lors des randonnées à ski. Guidage, contrôle et confort comme aucune autre poignée.

Per un supporto ergonomico massimo durante lo sci alpinismo. Guida, controllo e comfort come nessun'altra presa.

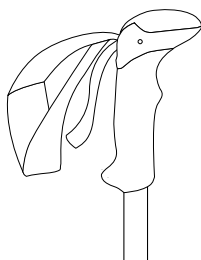

AERGO

Edgeless ski touring grip with proven comfort and ergonomically variable grip options, as well as an integrated safety adjustment strap.

Kantenloser Skitouring-Griff mit bewährtem Komfort und ergonomischen variablen Greifmöglichkeiten sowie integrierter Sicherheits-Verstell Schlaufe.

Poignée sans arête pour le ski de randonnée avec un confort éprouvé et des options de prise ergonomiques variables ainsi qu'une dragonne de réglage de sécurité intégrée.

Impugnatura senza bordo per lo sci alpinismo, con un comfort comprovato e opzioni di impugnatura variabili ed ergonomiche, nonché un anello di regolazione di sicurezza integrato.

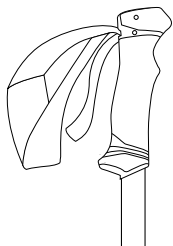

EVOCON

A classic all-rounder that combines hold, comfort and a safety adjustment strap.

Klassischer Allrounder, der Grip, Komfort und Sicherheits-Verstell Schlaufe vereint.

Un classique polyvalent qui allie adhérence, confort et dragonne de réglage de sécurité.

Classico tuttofare che combina presa, comfort e cinghia di regolazione di sicurezza.

FOLDING POLES

ELD - EXTERNAL LOCKING DEVICE

Intuitive construction for easy, comfortable setting and relaxing of the folding poles.

Intuitive Konstruktion zum einfachen und komfortablen Fixieren und Entspannen von Falstücken.

Conception intuitive pour une fixation et un déblocage faciles et confortables des cannes pliantes.

Design intuitivo per un fissaggio facile, comodo e per l'allungamento dei bastoncini pieghevoli.

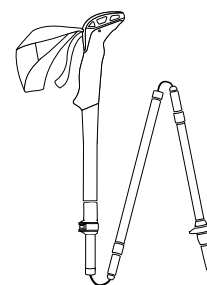

VARIO FOLDING POLES

Adjustable, folding poles adapt to different terrain and can be stowed in a backpack.

Verstellbare Falstücke zum Anpassen in unterschiedlichem Terrain und kompaktem Verstauen im Rucksack.

Bâtons pliables et réglables pour s'adapter aux différents terrains et se ranger dans votre sac à dos.

Bastoni pieghevoli regolabili adatti a vari tipi di terreno e al trasporto nello zaino.

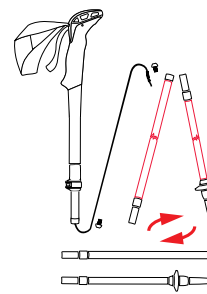

FX FOLDING POLES

Segment replacement technology for sustainable use of the folding poles. Easy segment replacement for servicing.

Segmentwechsel-Technologie zur nachhaltigen Nutzung von Falstücken. Einfacher Segmenttausch im Servicefall.

Technologie de changement de segment pour une utilisation durable des cannes pliantes. Échange facile des segments en cas de problème.

Tecnologia per il cambio dei segmenti, per un uso sostenibile dei bastoncini pieghevoli. Scambio di segmenti in caso di assistenza.

WATCH HOW THE FX TECHNOLOGY WORKS!
<https://youtu.be/KCv9sgNGIRO>

LOCKING DEVICES

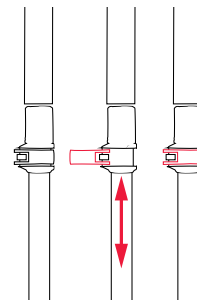

SPEED LOCK

TÜV Süd-certified external clamping for easiest adjustment and maximum holding force.

TÜV Süd-zertifizierte Aussenklemmung für einfachstes Verstellen und maximale Haltekraft.

Serrage externe certifié TÜV Süd pour un réglage plus facile et une force de maintien maximale.

Bloccaggio esterno certificato TÜV Süd per garantire facilità di regolazione e massima tenuta.

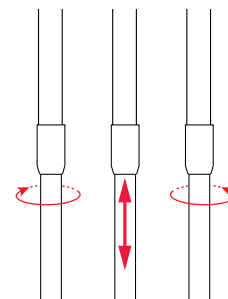

SUPER LOCK

Slim internal adjustment system with maximum holding force and reverse rotation prevention.

Schlankes Innenverstellsystem mit höchster Haltekraft und Rückdrehsicherheit.

Système de réglage interne mince avec force de maintien maximale et sécurité de rotation inverse.

Sistema di regolazione sottile e integrato per garantire la massima tenuta e sicurezza nei movimenti.

MATERIAL

CARBON

HRC stands for Highest Racing Carbon as the basis for the top models.

PRC stands for Performance Racing Carbon, subdivided into the various versions.

CC stands for Carbon Composite for the Beginner Models in the carbon range.

HRC steht für Highest Racing Carbon als Basis für die Topmodelle.

PRC steht für Performance Racing Carbon, unterteilt in den unterschiedlichen Ausprägungen.

CC steht für Carbon Composite bei den Einsteigermodellen im Carbonbereich.

HRC est l'abréviation de Highest Racing Carbon, qui constitue la base des modèles haut de gamme.

PRC est l'abréviation de Performance Racing Carbon, subdivisé en plusieurs grades.

CC signifie Carbon Composite pour les modèles d'entrée de gamme de la gamme carbone.

HRC sta per Highest Racing Carbon come base per i modelli di punta.

PRC sta per Performance Racing Carbon, suddiviso nelle diverse versioni.

CC sta per Carbon Composite per i modelli base della gamma in carbonio.

ALUMINIUM

HTS (Heat Treated Shaft) is the highest quality in the LEKI aluminium line. 3 levels: HTS 6.5, HTS 6.0 and HTS 5.5.

TS is LEKI's basic quality for Aluminum poles in 3 levels: TS 5.0, TS 4.5 and 4.0.

All details are internal LEKI categories

HTS (Heat Treated Shaft) ist die höchste Qualität bei den LEKI Aluminium Modellen mit 3 Level: HTS 6.5, HTS 6.0 und HTS 5.5.

TS ist die Basis-Qualität bei den LEKI Aluminium Modellen mit 3 Level: TS 5.0, TS 4.5 und TS 4.0.

Alle Angaben sind LEKI interne Kategorien.

HTS (Heat Treated Shaft) est la qualité la plus élevée pour les modèles en aluminium LEKI avec 3 niveaux : HTS 6.5, HTS 6.0 et HTS 5.5.

TS est la qualité de base pour les modèles en aluminium LEKI avec 1 niveau : TS 5.0, TS 4.5 et TS 4.0.

Toutes les spécifications sont des catégories internes LEKI.

HTS (Heat Treated Shaft) è il più alto standard di qualità per i modelli LEKI in alluminio con 3 livelli: HTS 6.5, HTS 6.0 e HTS 5.5.

TS è lo standard di base per i modelli LEKI in alluminio con un solo livello: TS 5.0, TS 4.5 e TS 4.0.

Tutte le denominazioni sono categorie create internamente da LEKI.

TIPS/BASKETS

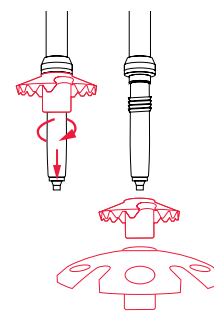

FLEX TIP

Flex Tip with replaceable basket system for varying snow conditions.

Flex Tip mit Wechseltellersystem für unterschiedliche Schneeverhältnisse.

Flex Tip avec système de pointe interchangeable pour différentes conditions de neige.

Flex Tip con sistema di punta intercambiabili per le diverse condizioni della neve.

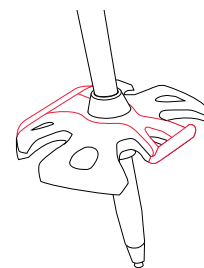

BIG MOUNTAIN BINDING BASKET

Two-component construction with stiffened panel for easy adjustment of the binding slope aid, as well as the functional edge for deicing the tour paths.

Zwei-Komponenten-Konstruktion mit versteiftem Panel für einfaches Verstellen der Bindungs-Steighilfen sowie Funktionskante zum Enteisen der Tourenfelle.

Construction à deux composants avec panneau raidi pour un réglage facile des éléments de fixation et bord fonctionnel pour le dégivrage des peaux de randonnée.

Costruzione a due componenti con pannello irrigidito, per una facile regolazione delle alzate degli attacchi e bordo funzionale per lo sbrinamento delle pelli da turismo.

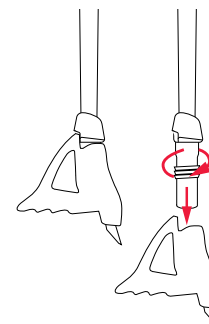

FIN VARIO

Tool-free changing of the basket size for various ski trail conditions or special ski roller tips.

Werkzeugloses Wechseln der Tellergröße für unterschiedliche Loipen-Beschaffenheiten oder auf spezielle Skirollerspitze.

Changement sans outil de la taille de la plaque pour des conditions de piste différentes ou pour une pointe de rouleau de ski spéciale.

Cambio senza attrezzi della dimensione della piastra per diverse condizioni di pista o per una punta speciale di ski roller.

GLOVES

SYSTEM TECHNOLOGIES

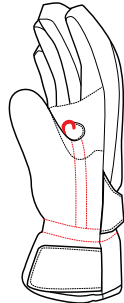

TRIGGER SYSTEM

Greater control via the direct connection between the glove and pole. More operating comfort thanks to rapid clicking in and out of the TRIGGER S / TRIGGER 3D poles.

Mehr Kontrolle durch direkte Verbindung zwischen Handschuh und Stock. Hoher Bedienkomfort durch schnelles Ein- und Ausklicken an TRIGGER S / TRIGGER 3D Stöcken.

Plus de contrôle grâce à la connexion directe entre le gant et le bâton. Grand confort d'utilisation grâce à l'encliquetage et au décliquetage rapides sur les perches TRIGGER S / TRIGGER 3D.

Un controllo maggiore grazie al collegamento diretto tra guanto e bastoncino. Elevato comfort d'uso grazie allo scatto rapido per mettere e togliere sui bastoncini TRIGGER S / TRIGGER 3D.

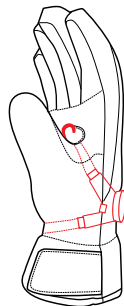

TRIGGER SYSTEM BOA

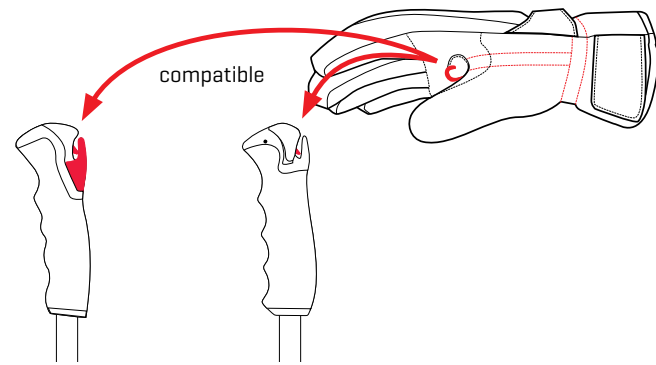

Perfect fit and most direct connection through the integration of Trigger S / Trigger 3D and The Boa® Fit System for alpine use. *Perfekte Passform und direkteste Verbindung durch die Integration von Trigger S / Trigger 3D und The Boa® Fit System für den alpinen Einsatz.*

Ajustement parfait et connexion la plus directe grâce à l'intégration du Trigger S / Trigger 3D et du système Boa® Fit pour le ski alpin.

Vestibilità perfetta e collegamento diretto attraverso l'integrazione del sistema Trigger S / Trigger 3D con il sistema The Boa® Fit per l'impiego nello sci alpino.

TRIGGER SYSTEM

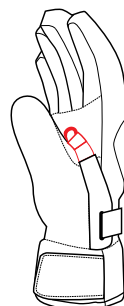

TRIGGER 3D

TRIGGER S

SPEED SYSTEM

Additional flexibility for easier gripping and faster grip changes, especially in racing. *Zusätzliche Flexibilität für leichteres Umgreifen und schnellere Griffwechsel speziell im Rennsport.*

Flexibilité supplémentaire pour une préhension plus facile et des changements de prise plus rapides, en particulier en compétition. *Ulteriore possibilità per cambiare presa ed impugnatura in modo più rapido e veloce soprattutto durante le gare.*

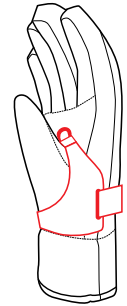

SHARK SYSTEM

Perfect fit, optimum guidance and excellent power transmission, especially for Nordic sports.

Perfekter Sitz, optimale Führung und hervorragende Kraftübertragung speziell für den nordischen Einsatz.

Ajustement parfait, guidage optimal et excellent transfert de puissance, spécialement pour l'utilisation en ski nordique. *Impugnatura perfetta, ottima guida ed eccellente trasmissione della forza soprattutto per l'uso nello sci nordico.*

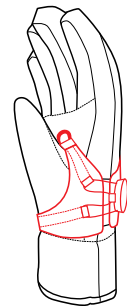

SHARK SYSTEM BOA

Perfect fit, most direct connection and therefore best power transmission through the integration of Trigger Shark and The Boa® Fit System especially for Nordic use.

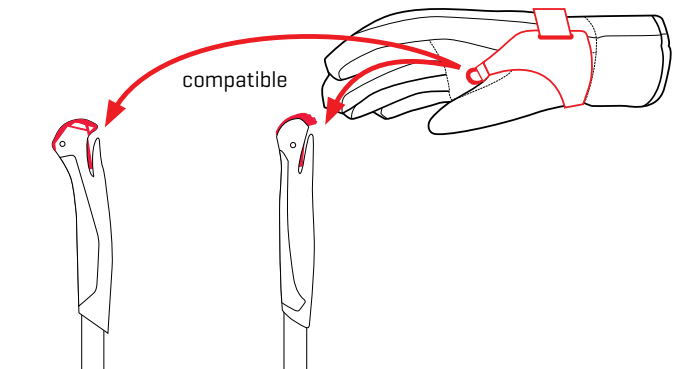

Perfekte Passform, direkteste Verbindung und dadurch beste Kraftübertragung durch die Integration von Trigger Shark und The Boa® Fit System speziell für den nordischen Einsatz.

Ajustement parfait, connexion la plus directe et donc meilleur transfert de puissance grâce à l'intégration du Trigger Shark et du système Boa® Fit spécialement conçu pour l'usage nordique.

Impugnatura perfetta e collegamento diretto e quindi migliore trasmissione della forza attraverso l'integrazione del sistema Trigger Shark con il sistema The Boa® Fit per l'uso nello sci nordico.

SHARK SYSTEM

NORDIC SHARK SHARK 2.0

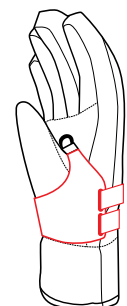

TWIN STRAP

The specially-developed twin strap stands for the best power transfer and most direct connection for nordic use.

Die speziell entwickelte Twin Strap steht für beste Kraftübertragung und direkteste Verbindung für den nordischen Einsatz.

Le Twin Strap, spécialement développé, représente la meilleure transmission de puissance et la connexion la plus directe pour une utilisation nordique.

Il Twin Strap appositamente sviluppato è sinonimo di migliore trasmissione di potenza e della connessione più diretta per l'uso nordico.

RACE GLOVE TECHNOLOGIES

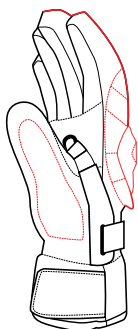

FLEX MAPPING

Concept to optimize the flexibility through specific construction and positioning of the components. Great freedom of movement and wearing comfort without compromising on safety features.

Konzept zur Optimierung der Flexibilität durch gezielte Konstruktion und Positionierung der Komponenten. Hohe Bewegungsfreiheit und Tragekomfort ohne Kompromisse bei den Sicherheitsmerkmalen.

L'idée consiste à optimiser la souplesse du gant grâce à une construction et une disposition spécifiques des composants. En résultent une grande liberté de mouvement et une facilité d'enfilage qui ne compromettent pas le niveau de protection offert.

Concetto per ottimizzare la flessibilità attraverso la costruzione e il posizionamento dei componenti. Alta libertà di movimento e ottima vestibilità senza rinunciare alla sicurezza.

SPEED PANEL

The fully integrated flexible TPU panel covers the central knuckle area and provides optimal damping. The flowing shape combines hand ergonomics and dynamics.

Das vollintegrierte flexible TPU Panel umschließt den zentralen Knöchelbereich und sorgt für beste Dämpfung. Die fließende Formgebung vereint Handergonomie und Dynamik.

L'empîecement souple en TPU est entièrement intégré au niveau de l'articulation et fournit ainsi un amortissement optimal des chocs. La forme suivant avec fluidité les courbes de la main combine ergonomie et dynamisme.

Il TPU Panel completamente integrato e flessibile racchiude la caviglia e offre la migliore ammortizzazione. La forma fluida unisce ergonomia della mano e la dinamica.

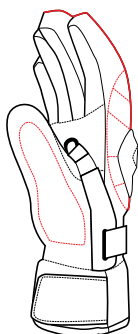

SILICONE SURROUND CUSHION

Flexible, polygonal pads made of silicone and additional EVA pads enclose the Speed panel and feature utmost all-around upholstery.

Flexible Polygon-Pads aus Silikon sowie EVA-Pads umschließen das Speed Panel und bilden eine umfassende Rundumpolsterung.

Des pièces polygonales en silicone, ainsi que des coussinets additionnels en EVA encadrent le "Speed Panel", optimisant de la sorte la garniture.

I Polygon-Pads flessibili in silicone come anche EVA-Pads racchiudono il Speed panel e formano un'imbottitura completa.

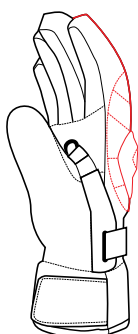

GLIDE ZONE

Panels and upholstery form a smooth transition without sharp edges. Optimized aerodynamics and gliding in case of gate or slope contact.

Panels und Polsterungen bilden einen fließenden Übergang ohne harte Kanten. Optimierte Aerodynamik und Gleiten bei Stangen- oder Pistenkontakt.

Garniture et empîecements alternent en continu sans angle vif. Ce qui permet une meilleure aérodynamique, et une glisse optimisée en cas de contact avec la piste.

Panels e imbottiture formano un passaggio senza spigoli. Aerodinamica ottimizzata e scorrevolezza sul contatto con la barra o la pista.

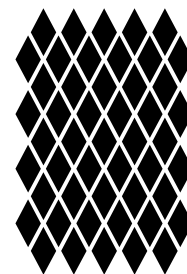

CERAMIC SHELL

Particularly robust surface reinforcement for maximum abrasion resistance.

Besonders robuste Oberflächenverstärkung für höchste Abriebfestigkeit.

Renforcement de surface particulièrement robuste pour une résistance maximale à l'abrasion.

Rinforzo delle superfici particolarmente robusto per la massima resistenza all'abrasione.

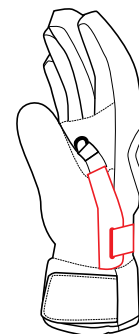

POWER FRAME

The additional, individually adjustable hook&loop fastener completes the frame around the wrist comparable to a strap for direct grip contact and even more efficient pole use.

Die zusätzliche individuell justierbare Klett-schlieÙe vervollständigt vergleichbar einer Schlaufe den Rahmen um das Handgelenk für direkten Griffkontakt und noch effizienteren Stockeinsatz.

La sangle réglable de type "Velcro" imite une dragonne et complète l'ajustement autour du poignet, pour une prise en main et une utilisation du bâton encore plus efficace.

L'ulteriore chiusura a strappo regolabile individualmente paragonabile al lacciolo attorno al polso per un contatto diretto dell'impugnatura e un uso ancora più efficiente del bastoncino.

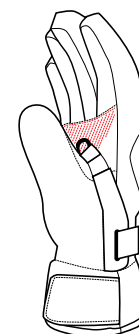

GRIP ZONE

Ergonomic shape of the palm with silicone reinforcements for best grip.

Ergonomische Form der Innenhand mit Silikonverstärkungen für beste Griffigkeit.

Forme ergonomique de la paume de la main avec renforts en silicone pour une meilleure préhension.

Forma ergonomica del palmo della mano con rinforzi in silicone per un'aderenza perfetta.

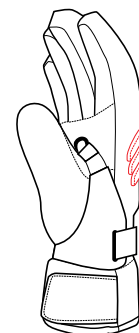

C-TECH

Soft padded inlays for good cushioning. All-round solution for sporty skiers.

Weich gepolsterte Einlagen für gute Dämpfung. Allroundlösung für den sportlichen Skifahrer.

Inserts rembourrés souples pour une bonne absorption des chocs. Solution complète pour le skieur sportif.

Morbidi inserti di imbottitura per una buona ammortizzazione. Ottima soluzione per tutti gli sciatori esperti.

GLOVE TECHNOLOGIES

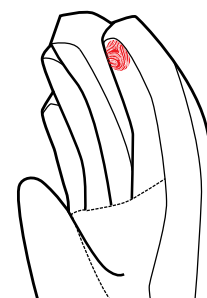

MF TOUCH

Easy operation of capacitive touch screens without taking off the gloves.

Einfache Bedienung kapazitiver Touchscreens ohne die Handschuhe ausziehen zu müssen.

Utilisation facile des écrans tactiles capacitifs sans devoir retirer les gants.

Utilizzo semplice dei touchscreen capacitivi, senza dover togliere i guanti.

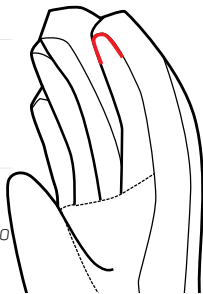

MF TOUCH PATENTED

Easy operation of capacitive touch screens without taking off the gloves. Particularly precise control on the screen thanks to contact elements integrated into the fingertips. Patented LEKI technology.

Einfache Bedienung kapazitiver Touchscreens ohne die Handschuhe ausziehen zu müssen. Besonders präzise Steuerung am Bildschirm durch in die Fingerspitzen eingearbeitete Kontaktelemente. Patentierte LEKI-Technologie.

Utilisation facile des écrans tactiles capacitifs sans devoir retirer les gants. Grande précision de contrôle à l'écran grâce à des éléments de contact intégrés au bout des doigts. Technologie LEKI brevetée.

Utilizzo semplice dei touchscreen capacitivi, senza dover togliere i guanti. Utilizzo particolarmente preciso sullo schermo grazie agli elementi di contatto inseriti nelle punte delle dita. Tecnologia brevettata LEKI.

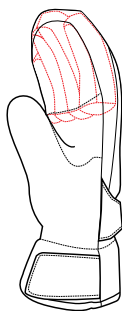

FINGER CHANNELS

Special, finger-shaped lining worked into the mittens for optimal fit and warmth.

Speziell in Fäustlingen eingearbeitete Innenfütterung in Fingerform für optimalen Sitz und WärmeKomfort.

Doubleure intérieure en forme de doigt spécialement incorporée dans les mouffles pour un ajustement optimal et un confort thermique.

Fodera interna speciale a forma di dito incorporata nei guanti per una vestibilità ottimale e comfort di calore.

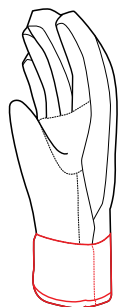

FLEX CUFF

Flexible neoprene cuff for easy putting on and taking off as well as optimal individual adjustment in the wrist area.

Flexible Neoprenstulpe für einfaches An- und Ausziehen sowie optimale individuelle Anpassung im Handgelenksbereich.

Manchette en néoprène souple pour un enfilage et un retrait faciles ainsi qu'un réglage individuel optimal au niveau du poignet.

Polsino flessibile in neoprene per infilare e sfilare i guanti in modo semplice e per adattare il guanto al polso nel miglior modo possibile.

LEKI LEASH

Elastic band at the wrist for comfortable handling and an additional guard against losing the glove. Alpine gloves are prepared with compatible straps and can optionally be equipped with the LEKI Leash, sold separately.

Elastisches Band am Handgelenk für komfortables Handling und zusätzlichen Verlustschutz der Handschuhe. Alpinhandschuhe sind durch kompatible Loops vorbereitet und können optional mit der separat erhältlichen LEKI Leash nachgerüstet werden.

Bande élastique au poignet pour une manipulation confortable et une protection supplémentaire contre la perte des gants. Les gants alpins sont préparés avec des boucles compatibles et peuvent être équipés en option du LEKI Leash, disponible séparément.

Banda elastica ai polsi per una manipolazione confortevole e una protezione aggiuntiva per evitare di perdere i guanti. I guanti da sci alpinismo sono preparati con passanti compatibili e possono essere equipaggiati con il LEKI Leash, disponibile separatamente.

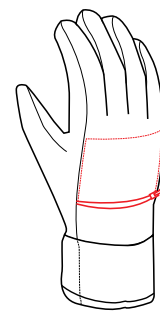

HEAT POCKET

Zip pocket integrated into the backhand to hold an additional heat pack.

In die Oberhand integrierte Reißverschlussstasche zur Aufnahme eines zusätzlichen Warmhalte Kissens.

Poche zippée intégrée sur le dos de la main pour accueillir une "chaufferette" supplémentaire.

Tasca integrata nella parte sopra con chiusura per inserire un ulteriore scaldamani.

FITTING CONSTRUCTION

RACE FIT

Tight cut with strong pre-curve for maximum grip.

Enger Schnitt mit starker Vorkrümmung für höchste Griffigkeit.

Coupe préformée et ajustée, pour une précision maximale.

Taglio anatomico con forte curvatura per la massima aderenza.

PRO FIT

Sporty cut with advanced pre-curve.

Sportlicher Schnitt mit starker Vorkrümmung.

Coupe sportive fortement préformée.

Taglio sportivo con forte curvatura.

THERMO FIT

Wide cut with extra-volume insulation for warm hands, even at ice-cold temperatures.

Weiter Schnitt mit voluminöser Isolation für warme Hände, auch bei sehr kalten Temperaturen.

Coupe large avec isolation volumineuse pour des mains isolées, même à des températures glaciales.

Taglio largo con isolamento voluminoso per tenere le mani calde anche a temperature molto rigide.

COMFORT FIT

Comfortable, loose cut for improved thermal insulation.

Komfortabler, lockerer Schnitt für eine verbesserte Wärmeisolierung.

Coupe ample et confortable pour une meilleure isolation thermique.

Taglio confortevole e morbido per un maggiore isolamento termico.

SLIM FIT

Narrow, tight-fitting cut for a slim hand and greater tactility.

Schmaler, eng anliegender Schnitt für eine schlanke Hand und höhere Taktilität.

Coupe étroite et moulante pour une main mince et une meilleure préhension.

Taglio stretto e aderente per una mano fine e una maggiore tattilità.

WARMTH LEVEL

Heat level based on

- Shell, insulation and lining materials
- Hydrophobic properties
- Fit and construction

Additional influencing factors

- Individual sensitivity
- Sufficient glove size selection
- Overall clothing concept
- Product care and impregnation

Wärmelevel basierend auf

- Shell-, Isolations- und Futtermaterialien
- Hydrophobe Eigenschaften
- Passform und Konstruktion

Zusätzliche Einflussfaktoren

- Individuelles Empfinden
- Ausreichende Grössenwahl der Handschuhe
- Gesamtheitliches Bekleidungskonzept
- Produktpflege und Imprägnierung

Niveau de chaleur basé sur

- Matériaux extérieurs, de l'isolation et de la doublure

- Propriétés hydrophobes
- Ajustement et structure

Autres facteurs d'influence

- Ressenti individuel
- Taille de gants suffisamment grande
- Concept vestimentaire global
- Entretien et imprégnation du produit

Livello di calore che si basa su

- Materiale shell, isolante e imbottitura
- Proprietà idrofobiche
- vestibilità, costruzione e struttura

Ulteriori fattori che influenzano

- Percezione individuale
- Ampia gamma di misure
- Concetto di abbigliamento a 360°
- Cura del prodotto e impregnatura

- 1 *, Active Skin / Summer

- 3 ***, Spring
- 4 ****, Warm
- 5 *****,, Extra Warm
- 6 *****,, Extra Warm +

HYDROPHOBIC LEVEL

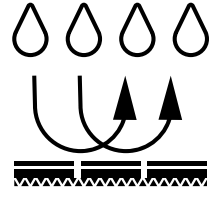

WATERPROOF GLOVE

Waterproof gloves through the application of separate membrane inserts.

Wasserdichter Handschuh durch den Einsatz eines separaten Membraneinserts.

Gant imperméable à l'eau grâce à l'utilisation d'un insert de membrane séparé.

Guanto impermeabile grazie a un inserto separato di una membrana.

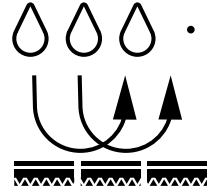

WATERRESISTANT COMPONENTS

Use of water-resistant multilayer laminates and functional components for maximum water repellency.

Einsatz wasserresistenter Mehrlagenlaminat und funktionaler Komponenten für höchste Wasserabweisung.

Utilisation de stratifiés multicouches résistants à l'eau et de composants fonctionnels pour une déperlance maximale.

Utilizzo di laminati multistrato resistenti all'acqua e di componenti funzionali per la massima idrorepellenza.

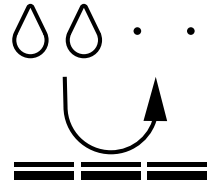

WATERREPELLENT TREATMENT

Durable impregnation of the components ex works.

Werkseitige, haltbare Imprägnierung der Komponenten.

Imprégnation durable des composants en usine.

I componenti vengono trattati ed impregnati in fabbrica

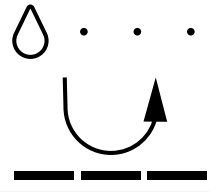

HYDROPHOBIC FIBERS

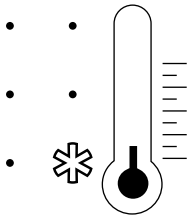

Materials with hydrophobic fibre properties.

Hydrophobe Fasereigenschaften der eingesetzten Materialien.

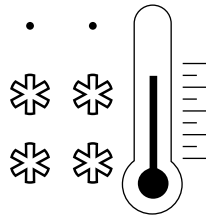

Propriétés hydrophobes des fibres des matériaux utilisés. Utilizzo di materiali idrofobici.

WATERPROOF INSERTS

GORE-TEX® - GUARANTEED TO KEEP YOU DRY

Branded membrane insert from Gore: durably waterproof and windproof. Highest breathability for optimal moisture management and highest wearing comfort.

Markenmembraneinsert von Gore: Dauerhaft wasserdicht und winddicht. Höchste Atmungsaktivität für ein optimales Feuchtigkeitsmanagement und höchsten Tragekomfort.

Insert de membrane de la marque Gore : protection imperméable et coupe-vent durable. Qualité respirante maximale pour une gestion optimale de l'humidité et un confort de port optimal.

Inserto di una membrana di Gore: traspiranti e impermeabili nel tempo. Massima traspirabilità per una gestione ottimale dell'umidità e per il massimo comfort di vestibilità.

SOFT-TEX®

High-quality membrane insert: waterproof, windproof, highly breathable. Particularly soft for a comfortable and pleasant wearing experience.

Hochwertiges Membraneinsert: Wasserdicht, winddicht, hoch atmungsaktiv. Besonders weich für ein komfortables und angenehmes Tragegefühl.

Insert de membrane de haute qualité: imperméable, coupe-vent, très respirant. Particulièrement doux pour un port confortable et agréable.

Inserto di una membrana di pregio: impermeabile, antivento e traspirante. Particolarmente morbido per una sensazione di vestibilità confortevole e piacevole.

SHELLS

SOFTSHELL

High-quality functional textile laminate: hard-wearing, water-resistant and breathable, with additional stretch for the best fit.

Hochwertiges Funktionstextillaminat: Strapazierfähig, wasserresistent und atmungsaktiv, mit zusätzlichem Stretch für beste Passform. Textile stratifié fonctionnel de haute qualité : résistant à l'usure, résistant à l'eau et respirant, avec stretch supplémentaire pour un ajustement optimal.

Tessuto laminato funzionale di pregio: resistente nel tempo, resistente all'acqua e traspirante, con ulteriore stretch per una forma perfetta.

MICROFIBER, RIPSTOP

Functional microfibre textiles: light, water-repellent and quick-drying.

Funktionale Mikrofasertextilien: Leicht, wasserabweisend und schnell trocknend.

Textiles fonctionnels en microfibres : légers, hydrofuges et à séchage rapide.

Tessuti in microfibra funzionali: leggeri, idrorepellenti e ad asciugatura rapida.

LEATHER

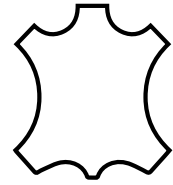

GOATSKIN

High-quality, hard-wearing goatskin for best grip and suppleness.

Hochwertiges, strapazierfähiges Ziegenleder für beste Griffigkeit und Geschmeidigkeit.

Peau de chèvre de haute qualité et résistante pour une meilleure prise en main et une plus grande souplesse.

Pelle di capra resistente e di pregio per la massima aderenza e morbidezza.

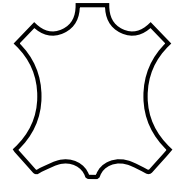

SHEEPSKIN

Finest, super-soft sheepskin leather for highest wearing comfort.

Feinstes, super softes Schafsfleder für höchsten Tragekomfort.

Cuir de mouton fin et super doux pour un confort de port optimal.

Pelle di capra fine e super morbida per il massimo comfort a livello di vestibilità.

PALM MATERIALS

G GRIP

Functional, hard-wearing and non-slip. Modern, animal-friendly alternative to genuine leather.

Funkcional, strapazierfähig und griffig. Moderne, tierfreundliche Alternative zu Echtleder.

Fonctionnel, résistant et antidérapant. Une alternative au cuir véritable, moderne et respectueuse des animaux.

Funzionale, resistente e dall'elevata aderenza. Alternativa moderna ed ecologica alla vera pelle.

NASH / SILICONE NASH

Durable, snug fit and hydrophobic. Depending on model with additional silicone print for even better grip.

Strapazierfähig, anschmiegsam und hydrophob. Je nach Modell mit zusätzlichem Silikonprint für noch besseren Grip.

Résistant, doux et hydrophobe. Selon le modèle avec empreinte siliconée supplémentaire pour une meilleure prise en main.

Resistente, confortevole e idrofobico. A seconda del modello con ulteriore stampa in silicone per un'aderenza ancora maggiore.

AX™ SUEDE / SILICONE AX™ SUEDE

Durable, snug fit and hydrophobic. Multistretch for highest wearing comfort and perfect fit. Depending on model, with additional silicone print for even better grip.

Strapazierfähig, anschmiegsam und hydrophob. Multistretch für höchsten Tragekomfort und perfekten Sitz. Je nach Modell mit zusätzlichem Silikonprint für noch besseren Grip.

Résistant, doux et hydrophobe. Multistretch pour un confort optimal et un ajustement parfait. Selon le modèle avec empreinte siliconée supplémentaire pour une meilleure prise en main.

Resistente, confortevole e idrofobico. Multistretch per un elevato comfort di indossabilità e maneggevolezza perfetta. A seconda del modello con ulteriore stampa in silicone per un'aderenza ancora maggiore.

INSULATION

PRIMALOFT®

Highest thermal insulation. Finest hydrophobic microfibrils form a particularly high number of microair chambers for heat storage. Minimal moisture absorption due to special fibre coating. Supersoft with maximum loft.

Höchste Wärmeisolierung. Feinste, hydrophobe Mikrofasern bilden eine besonders hohe Anzahl an Mikroluftkammern zur Wärmespeicherung. Minimale Feuchtigkeitsaufnahme durch spezielle Faserbeschichtung. Supersoft bei höchster Bauschelastizität.

Isolation thermique maximale. Des microfibrilles ultra-fines et hydrophobes forment un grand nombre de chambres à micro-air pour la retenue thermique. Absorption minimale de l'humidité grâce à un revêtement de fibres spécial. Supersoft avec un maximum d'élasticité à trois dimensions.

Massimo isolamento termico. Microfibre fini idrofobiche formano un numero particolarmente elevato di microcamere d'aria per conservare il calore. Assorbimento minimo dell'umidità grazie al rivestimento speciale in fibra. Super morbido ed elastico.

PRIMALOFT® CROSS CORE™

Proven PrimaLoft® insulation combined with the aerogel space technology. The fusion with aerogels composed of more than 95 % air further improves insulation values and thermal performance in relation to weight and volume. The application forms a never reached lightweight temperature barrier.

Bewährte PrimaLoft® Isolation kombiniert mit der Aerogel-Raumfahrttechnologie. Die Integration der aus mehr als 95 % aus Luft bestehenden Aerogele verbessert nochmals Isolationswerte und Wärmeleistung in Relation zu Gewicht und Volumen. In der Anwendung entsteht eine bislang unerreichte leichtgewichtige Wärmebarriere.

L'isolation éprouvée de PrimaLoft® associée à la technologie Aerogel, issue de la recherche spatiale. La fusion de cette technologie Aerogel – composée à plus de 95 % d'air – améliore la valeur d'isolation et la performance thermique, ainsi que le ratio poids/volume. Une telle combinaison offre de la sorte une barrière isolante pour une légèreté jusqu'ici jamais atteinte.

Comprovato isolamento PrimaLoft® combinato con tecnologia spaziale Aerogel. L'integrazione degli Aerogel, costituiti per oltre il 95 % da aria, migliora ulteriormente i valori di isolamento e le prestazioni termiche in relazione a peso e volume. Nell'applicazione si crea una barriera termica leggera senza precedenti.

SUPERLOFT / HYPERLOFT / DEXFILL

Very high thermal insulation. Ultra-fine hydrophobic microfibrils form a large number of tiny air chambers for heat storage. Especially soft.

Sehr hohe Wärmeisolierung. Sehr feine, hydrophobe Mikrofasern bilden eine hohe Anzahl an kleinsten Luftkammern zur Wärmespeicherung. Besonders weich.

Très haute isolation thermique. Des microfibrilles très fines et hydrophobes forment un grand nombre de minuscules chambres à air pour la retenue thermique. Particulièrement doux.

Elevato isolamento termico. Le finissime microfibre idrofobiche formano un numero elevato di minuscole camere d'aria per conservare il calore. Particolarmente morbida.

THINSULATE™

Thin layer of the finest hydrophobic microfibrils. Functional insulation layer for thin gloves or as an additional layer in multi-layer insulation constructions.

Dünne Schicht feinsten, hydrophober Mikrofasern. Funktionale Isolationseinlage für dünne Handschuhe oder als zusätzliche Lage in mehrschichtigen Isolationskonstruktionen.

Couche mince de microfibrilles hydrophobes les plus fines. Insert isolant fonctionnel pour gants fins ou comme couche supplémentaire dans les structures isolantes multicouche.

Strato sottile di piccolissime microfibre idrofobiche. Inserto isolante funzionale per guanti sottili o come ulteriore strato in strutture isolanti multistrato.

FIBERLOFT

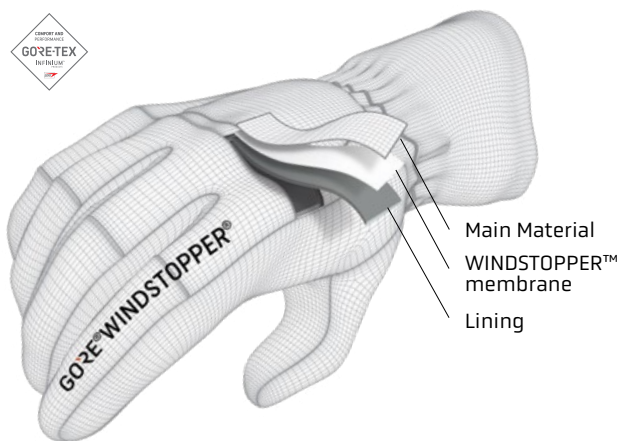

Very good thermal insulation. Fine, hydrophobic fibres form smallest air chambers for heat storage.

Sehr gute Wärmeisolierung. Feine, hydrophobe Fasern bilden kleinste Luftkammern zur Wärmespeicherung

Très bonne isolation thermique. Des fibres fines et hydrophobes forment de minuscules chambres à air pour la retenue thermique.

Ottimo isolamento termico. Le finissime microfibre idrofobiche formano minuscole camere d'aria per conservare il calore.

LINING

GORE-TEX INFINIUM™ WINDSTOPPER®

Branded liner laminate from GORE: durably windproof and highly breathable. Pleasantly soft and warm.

Markenfutterlaminat von GORE: Dauerhaft winddicht und hoch atmungsaktiv. Angenehm weich und warm.

Doublure stratifiée de la marque GORE: coupe-vent durable et hautement respirant. Agréablement doux et chaud.

Laminato d'imbottitura di marca GORE: antivento di lunga durata e molto traspirante. Piacevolmente morbido e caldo.

IDRY

Hydrophobic and fast drying with optimized moisture transport.

Hydrophob und schnell trocknend mit optimiertem Feuchtigkeitstransport.

Hydrophobe et séchage rapide avec évacuation de l'humidité optimisée.
