Aircraft 2 SMART

Strap into an evolution and welcome the Aircraft 2...the world's fastest helmet. Developed in conjunction with athletes at the forefront of riding and racing like Loris Vergier, the Aircraft 2 takes notes from its predecessor, the Aircraft, and builds. Offering superior protection for when your routine gets off track coupled with our proprietary Smartshock® Technology, the most advanced helmet to date is ready for flight.

Features:

- Carbon Fiber shell with Patent Pending injection molded chin bar integration
- Smartshock® Rotational Protective System (14 point)
- Incredibly sturdy, full face downhill helmet
- Multi-Density EPS foam injection molded with polycarbonate in 2 size specific molds (SM/MD & LG/XL)
- Massive air flow achieved with 20 ventilation ports.
- Multi-point adjustable visor designed for maximum vision and goggle stowage
- Washable, moisture-wicking anti-microbial liner
- D-Ring buckle for maximum security
- The Aircraft 2 is tested and certified according to ASTM (F1952-15), CPSC (16 CFR 1203), CE (EN 1078:2012+A1:2012), and AS/NZS (2063:2008) Bicycle Standards

Aircraft Composite

The Aircraft Composite is precision engineered with a fiberglass composite shell providing an ultra-lightweight design. Enhance venting channels manage airflow to create one of the most ventilated DH helmets on the market.

Features:

- Lightweight Design: Featuring a fiberglass composite shell
- Active Cooling System: Maximizes airflow more than any other helmet with a staggering 25 ventilation ports
- Comfort Liner: Washable, antibacterial liner, cheek pads and chin strap covers
- Emergency release Cheek Pads: For quick, safe removal
- Integrated Compartment: Accepts inflatable emergency release systems
- Compatible: With most popular neck brace systems
- Steel D-Ring buckle: Provides a secure fit while limiting weight
- Perfect Fit: Engineered with 2 Shell Sizes and 3 EPS Sizes
- Adjustable Visor: With machined lightweight aluminum screws
- The Aircraft Composite is tested and certified according to ASTM (F1952-15), CPSC (16 CFR 1203), CE (EN 1078:2012+A1:2012), and AS/NZS (2063:2008) Bicycle Standards
