WINTER RACE GLOVES LF

WINTER GLOVES LONG FINGER

Winter gloves are made of breathable and windproof material suitable for temperatures around 5°C. Gloves with their longer cut provide better wrist protection. Palm area is made of durable synthetic leather with ergonomically shaped foam padding which reduces pressure in palm area. Touch screen friendly thumb allows you to take pictures or answer phone calls. Pre-curved fit with silicone reinforcement of fingers for a better grip. Velcro strap on wristband.

SPECIFICATIONS

Main material: 100% Polyester
 Contrast material: 58% Nylon, 42% Polyurethane

BENEFITS

- Wind & water resistant for riding in winter conditions
- Longer cut for better wrist protection
- No need to take them off thanks to smartphone friendly fingertips

LONG CYCLING SOCKS

COMFORTABLE AND BREATHABLE ROCK MACHINE LONG CYCLING SOCKS

High knee cycling socks with reflective stripe are made from a thin functional material. They are anatomically shaped and thickened in the heel and toe area. The socks are 20 cm high. The used material helps wick away the moisture and cools the feet down. We recommend combining these socks with other clothes from our apparel line.

BENEFITS

- Reflective stripe for better visibility
- Anatomically shaped heel and toe area for better fit
- Functional material helps wick away the moisture
- Unique design fits other products from line

SPECIFICATIONS

Material: 80% Polypropylene, 15% Lycra, 5% Elastane

OVERSHOES WARMERS

OVERSHOES/OVERBOOTS WARMERS

Thin cycling overshoes warmers are made from elastic waterproof material. Thanks to the elasticity of the used material, they fit each shoe perfectly. There is zip closure at the back and hook-and-loop safety lock at the top. The overshoes are provided with elastic upper hem, reflective elements and reinforced toes and heels. Great protection for your feet from wet and cold in temperatures around 10°C.

BENEFITS

- Reflective elements
- Waterproof zipper
- Durable heel and toe section

ARM WARMERS

ARM WARMERS

Thermal and elastic cycling arm warmers. These arm warmers are made from super soft material with brushed inside, which enhances breathability, lightness and thermal isolation. Elastic fibre ensures shape stability and high elasticity. There are reflective elements, flat seams and non-slip silicon strap. We recommend packing these arm warmers for trips should the weather be unpredictable. Arms are the first place where you will feel cold.

BENEFITS

- Silicone slip resistant strip
- Reflective accessories
- Flat lock seam

SPECIFICATIONS

Material: 50% Polyester, 50% Polyurethane
SW PROTECT - polyester material with PU coating, water and snow protection
W-Proof - water-proof, breathable and wind-resistant Membrane

S.TOOL 16

FOLDING TOOL

Hex 2, 3, 4, 5, 6, 8 mm

Star Shape T25

Philips PH2

Flat

Unbeatably thin "sixteen" for both racers and commuters comfortably fits in the back of your jersey or bike bag. Contains a classic set of tools plus spoke wrench and bottle opener. Which one will you use more?

BENEFITS

- Very thin 16 function multitool
- Long alloy bits for comfortable use
- Contains Hex 2 / 2.5 / 3 / 4 / 5 / 6 / 8 mm for cranks
- Also T25 star / PH2 cross / flat screwdriver
- Chain tool, tyre lever, spoke wrench & bottle opener

SPECIFICATIONS

Chromium-Vanadium steel, Sealed joints

PRODUCT CODE

NF020401

S.TOOL 8

FOLDING TOOL

Hex 2, 3, 4, 5, 6, 8 mm

Star Shape T25

Philips PZ2

Flat

The less the better. With this smallest folding multitool in our range you'll tighten every screw necessary and won't carry a single gram of extra weight. Thanks to its size it fits everywhere.

BENEFITS

- Very thin 9-function multitool
- Folding flat for reduced dimensions
- Contains Hex 2 / 3 / 4 / 5 / 6 / 8 mm for cranks
- Also T25 star / PH2 cross / flat screwdriver

SPECIFICATIONS

Chromium-Vanadium steel, Sealed joints

PRODUCT CODE

NF020101

R.TOOL 12

FOLDING TOOL

Hex 2, 2.5, 3, 4, 5, 6, 8 mm

Star Shape T25

Philips PH2

Flat

When riding on trails, you need something thicker. This 12-function multitool with nylon composite body fits in the palm of every true trail hunter, fixing everything with its long bits, even a torn chain.

BENEFITS

- Must-have 12-function multitool for every trail hunter
- Robust body with long bits for comfortable use
- Contains Hex 2 / 2.5 / 3 / 4 / 5 / 6 / 8 mm for cranks
- Also T25 star / PH2 cross / flat screwdriver
- Chain tool and tyre lever

SPECIFICATIONS

Chromium-Vanadium steel, Sealed joints

PRODUCT CODE

NF020301

NF060401

COMFORT GRIP 30

GRIP WITH BAR-ENDS AND MICROTEXTURE DESIGN

The ergonomic shape of micro-texture grips with bar-end supports cyclist's hands, therefore allows the biker to ride long distances. The rider can change the position of hands during an all-day ride.

Grips with bar-ends are mostly for Cross and Trekking/Touring riders. Bar-ends allow to push harder into the pedals during steep climbs and squeeze the maximum out of riders' energy. Fits on all common handlebars.

BENEFITS

- Microtexture design for better grip
- Multi-ergonomic shape with plenty of support for your hands
- Allows many holding positions

SPECIFICATIONS

Material: Rubber / Gel

Construction: Double Density, Microtech Texture, One Side Ring, Aluminum

Spec. ø 22.4 mm 140 / 140 mm

PRODUCT CODE

NF160301

COMFORT GRIP 20

GRIP WITH PALM SUPPORT AND MICROTEXTURE DESIGN

Ergonomic shape palm platform supports cyclist's hands, therefore allows the biker to ride long distances. Microtexture design ensures a slip-less finger grip. Suitable for semi and up-straight position on the bike – mainly for City and Trekking cyclists. Fits on all common handlebars.

BENEFITS

- Microtexture design for better grip
- Ergonomic support for your palms
- Allows free movement of your hands

SPECIFICATIONS

Material: Silicone / Rubber / Gel

Construction: Triple Density, Microtech Texture, One Side Ring, Aluminum

Spec. ø 22.4 mm 136 / 136 mm

PRODUCT CODE

NF160201

COMFORT GRIP 10

GRIP WITH MICROTEXTURE DESIGN

Optimal combination of ergonomic comfort and MTB performance with microtexture design for slip-less finger grip. A semi-ergonomic element offers special support for a palm. However, this element is small enough to allow the free movement of your hand when handling the bike up and down a difficult trail. Fits on all common handlebars.

BENEFITS

- Microtexture design for better grip
- Ergonomic support for your palms
- Allows free movement of your hands

SPECIFICATIONS

Material: Silicone / Rubber / Gel

Construction: Triple Density, Microtech Texture, One Side Ring, Aluminum

Spec. ø 22.4 mm 131.6 / 131.6 mm

PRODUCT CODE

NF160101

RACE GRIP 30

RACE GRIP WITH ANODIZED LOCK-ON

Racing grip with an ergonomic texture that can handle each advantage or challenge. Anodized fixing lock-on rings hold the grip in the right position. The double density of the material provides comfort and durability. Fits on all common handlebars.

BENEFITS

- Ergo-race texture for slipless handling in any condition – dry, wet or mud
- Durable rubber compound keeps you comfortable even on day-long riding
- Lightweight alloy lock rings keep the grip tight on the handlebar and provide an easy mount and disassemble

SPECIFICATIONS

Material: Silicone/Rubber

Construction: Double Density, One Side Ring, Aluminum

Spec. ø 22.4 mm 138.8 / 138.8 mm

PRODUCT CODE
