## MIZUNO CREW 21

# MIZUNO GLOBAL SUSTAINABILITY

MIZUNO CREW 21 was launched in September 1991 as our global sustainability commitment to protect the planet for future generations. As Mizuno recognized that all corporate business activities

affect the environment, we focused on contributing to the preservation of the global environment with our company activities every day. Starting April 2021, we have been designating all the Mizuno Sustainability activities as **“MIZUNO CREW 21”**

We will contribute to social, economic, and environmental sustainability, as well as the fulfillment of our relevant activities by integrating innovations and constantly improving our products and services. We endeavor to ensure a future in which people cultivate a healthy mind and body through sport.

## VISION

We believe in a sustainable future in which all people live equally on a safe and healthy planet. While respecting the dignity of all people, we will continue to nurture a beneficial future, where sports can be enjoyed anytime, anywhere and without reservation.

## MISSION

To protect our planet earth, the stage on which we play sports. By integrating innovations in our products and services, based on science, for the benefit of society and inspired by nature, we endeavor to ensure a future in which people cultivate a healthy mind and body through sports.

## PURPOSE

MIZUNO CREW 21 is our global sustainability commitment to protect our planet for future generations.

## ENVIRONMENT

We are committed to achieving a sustainable society through actively contribute to the conservation of the global environment in all business activities and actions of all individuals.

As we provide products and services that embody the diverse value of

sports, protecting the global environment where people around the world can live with peace of mind and play lively sports is an important issue.

## HEALTH

Believing in the collective power which sports can contribute to the mental and physical health of people.

Sports have the ability not only to maintain physical and mental health, but also to foster communication across countries and generations by contributing to bring out the potential of people and regions.

Mizuno supports more people to access sports and contributes to the realization of a richer and more sustainable society in which each person can shine.

## HUMANITY

United in respecting diversity to contribute to the realization of a future in which all people respect, understand and accept each other.

We believe in a world in which all people can live in equally. To bring us closer to that – our company respects the diversity of all people and provides better sporting equipment, places and opportunities for playing sports to all, regardless of nationality, race, gender, age or physical ability, through our sincere business activities.

## FLAGSHIP OF SPEED

This shoe contains Mizuno's best technologies. It's engineered with cutting-edge features like SMOOTH SPEED ASSIST and MIZUNO ENERGY XP (nitrogen infused). SMOOTH SPEED ASSIST improves your running efficiency and the full MIZUNO ENERGY XP midsole offers elite athletes the best balance between high energy return, responsiveness and cushioning. Additionally, the carbon reinforced wave plate enhances stability and the G3 outsole provides excellent grip.

### BENEFITS

- SMOOTH SPEED ASSIST - Supports runners to use what Mizuno considers to be the ideal running gait from the start to finish of races.
- MIZUNO ENERGY XP - The nitrogen infused midsole material offers a high energy return and cushioning which is ideal for athletes running at a high pace.
- MIZUNO WAVE - Enhances stability during speed running without skimping on softness.
- G3 sole - Lightweight outsole with superior grip

# MIZUNO α II JAPAN

MADE-IN-JAPAN SPEED

This is the perfect boot for players who prefer a non-kangaroo leather material for an additional speed boost, plus a lightweight, flexible, barefoot feel. Weighing in at just about 190 grams, this featherweight boot also features an Engineered Fit Last Neo for unbelievable comfort, an upper redesigned for a better fit, a sole with KaRVO and MIZUNO ENERGY material that push you forward, and an insole with grip-boosting ZEROGLIDE α MESH.

## BENEFITS

- Shoe last - Uses the Engineered Fit Last Neo, which was redesigned for modern football players. The last, which has been meticulously redesigned down to the smallest detail, achieves a fit that only Mizuno could deliver.
- Shoe weight - Speed-boosting boot with a weight of about 185 g (27.0 cm size), which is even lighter than the previous model.
- Sole - The boot continues to use an outsole focused on increasing forward-direction speed. The thickness of the KaRVO material used at the forefoot was optimized in pursuit of energy return and flexibility. Plus, the MIZUNO ENERGY at the heel enhances cushioning and energy return.
- Insole - The grip of the ZEROGLIDE α MESH reduces lateral shifts and supports precise movements.

# MORELIA NEO IV B ELITE

ULTIMATE BAREFOOT-FEEL SPEED.

Boost your techniques with a shoe that offers a barefoot feeling engineered with numerous improvements. This real K-Leather football boot achieves a barefoot feeling combined with tough durability that will hold strong as you achieve your best speeds ever.

## BENEFITS

- BareFoot KNIT NEO (updated with a knit pattern that aims for even more of a barefoot feel around the boot opening)
- New laces eyelet structure (redesigned eyelet arrangement minimizes creasing when flexing and conforms better to the foot)
- External counter outsole (nylon x TPU resin)
- Updated outsole with a stiffer shank for enhanced stability
- Suitable for following surfaces: soil, artificial grass - 4g and 5g, and natural grass

KICK IT UP A NOTCH

Modeled on the MORELIA NEO series, this mid-tier boot helps players boost their performance with its comfort and functionality. It uses the same Engineered Fit Last Neo and laces eyelet structure as the MORELIA NEO IV, as well as its ultra-light outsole with a stiffer shank for improved stability. The microfiber artificial leather upper emphasizes durability and will hold up during even the toughest games.

### BENEFITS

- Microfiber artificial leather upper
- Ultra-light boots weighing about 190 grams
- Uses the same Engineered Fit Last Neo as the MORELIA NEO IV
- Features the new laces eyelet structure of the MORELIA NEO IV (redesigned eyelet arrangement minimizes creasing when flexing and conforms better to the foot)
- Uses the ultra-light outsole of the MORELIA NEO IV (updated outsole with a stiffer shank for enhanced stability)

# WAVE DIMENSION

## BE IN YOUR ELEMENT

This shoe is designed for both stability and comfort. It is modeled on the WAVE MOMENTUM, including a sole heel structure that enables smooth jumping motions, a comfortable bootie structure, and supportive side panels. MIZUNO ENERGY at the heel enhances cushioning while stability is boosted with outriggers at the front of the sole.

### BENEFITS

- MIZUNO ENERGY placed in the heel provides excellent cushioning while jumping.
- Outriggers on the front of the sole and a stabilizer function in the midfoot provide greater stability.
- Inspired by the WAVE MOMENTUM, the sole heel structure enables smooth jumping motions, the bootie structure provides a comfortable fit, and the side panels give support.

# CYCLONE SPEED 5

## UP YOUR SPEED

Jumpstart your volleyball skills with this shoe designed for beginner players, especially in junior and senior high schools. The shoe fuses beginner-friendly features, including a light weight, comfortable feel, flat sole, and excellent flexibility. The last used makes it comfortable for all foot shapes, while the flexible and stable flat sole helps players move freely to make their game.

### BENEFITS

- Use a more comfortable last, making it easy to match the feet of a wide range of players.
- Highly flexible sole design that is beginner-friendly and bends easily even for players who are still developing their physical strength.
- Extremely stable flat sole that helps players get a feel for the court through the entire foot.
- Removable cup insole that follows the shape of the foot.

## MATCH-WINNING STROKES

Achieve victory with this shoe engineered to keep your strokes strong until the final match point. Reducing this shoe's weight by about five grams from the previous model, the MIZUNO ENERGY NXT technology provides cushioning and energy return essential for playing strongly to the very end. The shoe also features the updated Dyna-Heel Lock lite for improved lightness, fit, and stability, and the adoption of a flat sole and outrigger to support rotational movement.

### BENEFITS

- Updated shoe structure to Dyna-Heel Lock lite for lighter, easier access
- Improved ankle-to-heel fit and stability for baseliners' lateral movement
- MIZUNO ENERGY NXT at heel and ball for high energy return and shock absorption
- Flat sole with outrigger supports rotational movement
- Rubber wrapping at ball of foot enhances durability for baseliners

# WAVE ENFORCE COURT

## COMMAND THE COURT

Take control of the court with this cushioned shoe offering amazing features at a great price. The MIZUNO ENERGY and Foam Wave combination provides excellent cushioning, energy return, and comfort. The flat sole and outrigger enhance stability during play, while the X10 rubber outsole offers excellent durability. This shoe is inspired by WAVE ENFORCE TOUR for both its features and design, but is offered at a much more affordable price.

### BENEFITS

- MIZUNO ENERGY x Foam Wave: The high cushioning and energy return of MIZUNO ENERGY and Foam Wave provide enhanced comfort when wearing the shoe.
- Flat sole x Outrigger: The wide area that makes contact with the ground enables more stability underfoot.
- X10 rubber: Outsole material with amazing durability.
- Design linked to ENFORCE TOUR: This model is the twin spirit of ENFORCE TOUR, sharing its rope-like design for the sole and upper.

## STEP IT UP

Advanced players can count on this speed-boosting shoe to outpace the competition. It combines a light weight with features that will enhance your starting motions, ease of movement, and turns. These include the MIZUNO ENERGY NXT and MIZUNO ENERGY INSOLE at the ball of the foot for quick starts and turns, plus the updated WAVE PLATE that converts your power into speed.

### BENEFITS

- MIZUNO ENERGY NXT and ENERGY INSOLE support quick turns and agility.
- Updated WAVE PLATE offers rigid feel, power conversion, and smoother movements.
- Dyna-Eyelet Wrap provides a snug fit that adapts to foot motion.
- 3D-SOLID design maintains softness while incorporating enhancements.

## LIGHTER EXCELLENCE

You don't need to compromise on cushioned comfort just because you want a lightweight shoe. Because it is loaded with Mizuno's signature features, this shoe offers overwhelming cushioning at the same weight or lower than models by competing companies. The features include MIZUNO ENERGY Foam x Foam Wave for cushioning and energy return, a comfortable last in a spacious width, and the mesh-based upper construction for lightweight softness even when flexing.

### BENEFITS

- MIZUNO ENERGY Foam x Foam Wave: Experience enhanced comfort during wear due to the MIZUNO ENERGY offering amazing cushioning and energy return plus Foam Wave.
- Two-color mesh-based upper construction: This shoe has an even more quality look due to the change to a two-color mesh from the previous model. The mesh construction provides a lightweight feel and softness from when you first put them on and when flexing.

## SERVE UP SUCCESS

You'll be serving up success in no time with this beginner-friendly shoe designed to boost performance. It offers a combination of features that help elevate, including a flat sole, high flexibility, relaxed feel, and light weight. The highly-flexible, flat sole design bends easily and helps you get a feel for the court. This model has been given a more relaxed feel and reduced in weight by about 15 grams compared to the previous model.

### BENEFITS

- More relaxed last than the previous model, providing comfort that easily matches the feet of a wide range of players.
- Highly flexible sole design that is beginner-friendly and bends easily even for players who are still developing their physical strength.
- Extremely stable flat sole that helps players get a feel for the court through the entire foot.
- Removable cup insole that follows the shape of the foot.

## MATCH-WINNING STROKES

Achieve victory with this shoe engineered to keep your strokes strong until the final match point. Reducing this shoe's weight by about five grams from the previous model, the MIZUNO ENERGY NXT technology provides cushioning and energy return essential for playing strongly to the very end. The shoe also features the updated Dyna-Heel Lock lite for improved lightness, fit, and stability, and the adoption of a flat sole and outrigger to support rotational movement.

### BENEFITS

- MIZUNO ENERGY NXT and ENERGY INSOLE enhance speed and agility with quick turns.
- Updated WAVE PLATE delivers rigidity, power conversion, and smoother movements.
- Dyna-Eyelet Wrap ensures a snug fit that adapts to foot motion.
- 3D-SOLID design maintains softness with improved features.

## COMMAND THE COURT

Take control of the court with this cushioned shoe offering amazing features at a great price. The MIZUNO ENERGY and Foam Wave combination provides excellent cushioning, energy return, and comfort. The flat sole and outrigger enhance stability during play, while the X10 rubber outsole offers excellent durability. This shoe is inspired by WAVE ENFORCE TOUR for both its features and design, but is offered at a much more affordable price.

### BENEFITS

- MIZUNO ENERGY x Foam Wave: The high cushioning and energy return of MIZUNO ENERGY and Foam Wave provide enhanced comfort when wearing the shoe.
- Flat sole x Outrigger: The wide area that makes contact with the ground enables more stability underfoot.
- X10 rubber: Outsole material with amazing durability.
- Design linked to ENFORCE TOUR: This model is the twin spirit of ENFORCE TOUR, sharing its rope-like design for the sole and upper.

# TECHNICAL GLOSSARY

# TECHNICAL GLOSSARY

## WAVE TECHNOLOGY

	<b>Parallel Wave</b> Wave technology which uniformly disperses shock throughout the sole, providing excellent cushioning and enhanced stability.		<b>Fan-shaped Wave</b> Wave technology which features various Wave heights, delivering excellent cushioning and stability.
	<b>Infinity Wave</b> Wave technology with a more visible and effective construction. Two parallel plates that sit together with soft cushioning pillars in-between to provide unrivalled cushioning and improved durability by absorbing and dispersing the impact at foot strike.		<b>Double Fan-shaped Wave</b> Wave technology that gives the highest levels of support combined with excellent cushioning.

## ALL SPORTS

	Inspired by nature, Wave is a unique midsole technology that provides both cushioning and stability. Wave's unique shape absorbs and disperses the impact at foot strike, which results in a smoother, more cushioned feel on every step.		ap+, a lightweight midsole compound offering rebound and cushion durability, providing a high level of comfort.
	The DynamotionFit system uses highly advanced motion capture and biomechanics technology. Mizuno has developed a design blueprint to engineer shoes that work with your foot throughout the gait cycle.	<b>AIRmesh</b>	Breathable and cool, AIRmesh allows each running shoe from Mizuno to maintain a high standard of breathability and comfort of the upper.
	Cool and Dry. Mizuno Intercool solves the problem of heat and humidity build-up in a running shoe. It does this by incorporating a full-length ventilation system in the sole of the shoe that removes heat and humidity from the foot through a system of ventilation channels.	<b>Removable INSOCK</b>	Removable insock for comfort and cushioning.
<b>SR touch</b>	An advanced lightweight cushioning material that absorbs shocks and keeps the transition smooth and fast due to its quick rebound properties.	<b>Premium INSOCK</b>	A high-grade removable insock for comfort and cushioning.
<b>MIZUNO COB</b>	MIZUNO COB (center of balance) is a midsole structure with multiple pods that activate body awareness to increase balance.		Provides a well cushioned landing with amazing energy return. This midsole material surpasses all expectations of comfort set by previous materials.
	Redefine what Energy return should feel like with this super soft and bouncy midsole material created by Mizuno for our top line products.		

# TECHNICAL GLOSSARY

## RUNNING TECHNOLOGIES

<b>AeroHug</b>	The new MIZUNO upper technology holds the foot stable during the run for a secure fit and an unrivalled comfort. A soft fabric mesh stretches and wraps around the foot to create the most comfortable ride.		Pebax® Powered Wave Plate for lightweight energy return
<b>X10</b>	Durability and Traction. X-10 is an extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and gives more traction at the heel strike.		The Wave Plate is constructed with a bio-sourced Pebax Rnew® plate. This provides extremely lightweight support and energy return, empowering athletes with every step.
	XtaRide, Mizuno's technical trail concept featuring X lugs and Xta groove, leads to trail shoes that adapt to their surroundings and work in perfect harmony with the body.		An evolutionary lightweight midsole that delivers stress-free cushioned rides with high rebounds. It gives an energised, euphoric and super-comfortable run.
	G3, an advanced performance outsole component that enhances traction where needed most and reduces weight.	<b>ESS Rock Plate</b>	An extra solid sheet rock-plate in the forefoot which provides superb protection against stones and rock.
	A unique midsole compound providing high comfort and performance, while being extremely lightweight.		Waterproof, breathable fabric membrane upper technology.
	An engineered approach to minimise the rapid acceleration and deceleration of the foot during transition, creating the smoothest ride possible.	<b>Blown Rubber</b>	The pressure absorbing blown rubber outsole optimizes pressure distribution throughout the forefoot.
<b>WAVEKNIT</b>	A knit construction inspired by our Mizuno Wave technology. It's dynamic stretch and hold abilities provides a sock-like fit that feels natural every step.	<b>XPJP</b>	A completely new type of midsole compound that delivers cushioning, rebound and durability at a high level. The exquisite harmony of the super soft and advanced cushioning with high energy return makes you feel as if you are floating on water.
<b>ELB</b>	A lightweight midsole compound providing high level cushioning and rebound for energy efficient runs.	<b>XtaGrip</b>	A outsole construction that provides superior grip on various surfaces thanks to it's adaptive abilities. Allows for high traction on soft surfaces and high friction on firm surfaces.
	Vibram's innovative lug design which solely focuses on offering superior traction.		Vibram's high performance rubber compound which offers a superior grip on dry and wet terrains.

# TECHNICAL GLOSSARY

## FOOTBALL & RUGBY TECHNOLOGIES

	A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.		Grippy insock material that stops the foot from sliding inside the shoe.
	Upper delivers a high level of softness and durability with a structured fit.		R-Fiber mesh controls the upper stretch and securely holds the foot during acceleration and turns.
	A unique midsole compound providing superb comfort and performance, while being extremely lightweight.		Highest kangaroo leather quality for premium comfort fit and natural ball touch.
	It is a revolutionary concept, with an integrated memory foam construction which controls three key performance characteristics: Fit, Stability and Touch.		

## RACKET SPORTS TECHNOLOGIES

	A unique upper providing the highest level of softness and durability, while maintaining breathability.		A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.
	An exceedingly lightweight midsole material with excellent comfort and resilience properties.		Durability and Traction. X10 provides extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and provides more traction at the heel strike.
	Dynamotion Groove - an innovatively constructed outsole using specifically designed flex grooves to improve stability and on court agility.		The BOA Fit System contains three integral parts: a micro-adjustable dial, super-strong lightweight laces, and low friction lace guides. It is engineered to optimize fit and provide precision, adaptability, and control.

# TECHNICAL GLOSSARY

## INDOOR TECHNOLOGIES

	A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.		An exceedingly lightweight midsole material with excellent comfort and resilience properties.
	A performance outsole component that enhances traction where needed most.		Specifically designed flex grooves in the outsole to improve stability and on court agility.
	Dura Shield protects your toes and increases the product durability.		Super soft and durable synthetic collar lining insert which adds comfort and durability when using ankle braces.
	A shock-absorbing cushioning compound.		

# TECHNICAL GLOSSARY

## APPAREL TECHNOLOGIES

	Mizuno DryLite technology draws excess moisture away from the body, creating a comfortable and dry microclimate for best performance.		Mizuno FreshPlus technology adds an anti-bacterial and deodorising function to your garment, creating a fresher and odour reducing product.
	Mizuno Bodymapping technology provides enhanced air circulation inside the garment, keeping the body cool and dry.		Mizuno DynamotionFit technology is based on anatomical research to create patterns that give improved garment fit and full freedom of movement.
	Mizuno's BIOGEAR is based on in-depth scientific research into the human exercise physiology and biomechanics. It helps to maintain body balance, improve performance and reduce the fatigue of muscles and joints during sport by controlling stretch, pressure and shape.		CoolTouch technology provides a soft feeling and leads to extremely quick drying.
	Mizuno ImpermaLite technology provides a performance blend of water and wind protection combined with superior breathability.		BlindStitch construction provides flat seams for anti-abrasion and enhanced comfort.
	NightLite, with its reflective material, provides superior retro reflection for low light running.		Breath Thermo is an extremely innovative thermal fabric yarn. It captures escaping body heat and, through a patented reaction in the yarn, generates heat-returning warmth to the body.
	Mizuno Warmalite technology recycles body heat, creating an insulating warm layer between body and garment.		SolarCut technology reflects sunlight ultraviolet waves by reducing the light transmission and thus keeping the body cool.
	Saving water with pure performance. Waterless dyeing process, without added chemicals, that saves up to 25 liters of fresh water per tee shirt dyed.		Keeps high breathability in case of sweaty. Dry material with high heat release. Keeps high breathability in case of sweaty. Dry material with high heat release.
