REACTIVE FLASH THE SPEED OF LIGHT

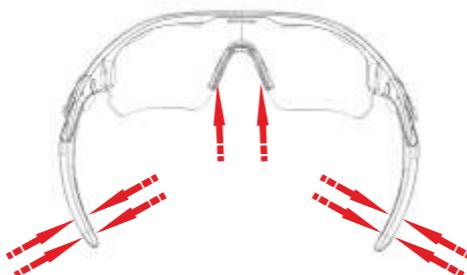

Technology and advanced production techniques are the starting point in the SH+ eyewear projecting. Our sport glasses use high technical materials, perfect to obtain lightweight, functional and extremely comfortable eyewear.

La tecnologia e i sistemi avanzati di produzione sono il punto di partenza nello studio degli occhiali SH+. I nostri occhiali utilizzano materiale molto tecnici adatti a creare occhiali leggeri, funzionali ed estremamente confortevoli.

Technologie und fortschrittliche Produktionsmethoden sind die Basis der SH+ Brillen. Für unsere Modelle verwenden wir modernste Materialien zur Schaffung leichter, funktioneller und extrem komfortabler Sportbrillen.

ADJUSTABLE NOSE PADS AND TIPS

The final part of the temples made of a soft polymer fits perfectly to the curvature of the head, avoiding any form of pressure in the temporal area. The same applies to the nose pads made of soft polymer having a core folding ensuring the excellence of comfort.

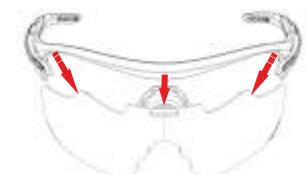

La parte finale dell'asta realizzata in un polimero morbido si adatta perfettamente alle curvature del cranio evitando qualunque forma di pressione nella zona temporale.

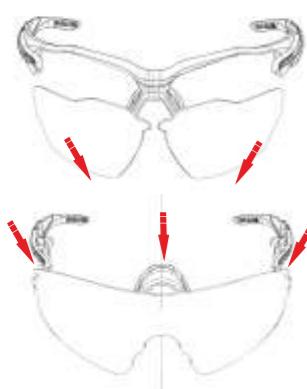

Lo stesso dicono i naselli realizzati in morbido polimero con un'anima pieghevole garantendo l'eccellenza del comfort.

Die Bügelenden, bestehend aus einem weichen Polymer, passen sich perfekt an die Krümmung des Kopfes an und vermeiden jede Form von Druck in diesem Bereich.

EASY CHANGE INTERCHANGEABLE LENSES

The system of interchangeable lenses called Easy-Change is one of the basic technologies of our sport glasses. Every sport glasses model has different way of fitting and removing the lenses. The shape of the lenses and the frame interact differently. Easy-Change technology enables you to easily change out lenses to manage any light condition.

Il sistema di sostituzione delle lenti chiamato Easy-Change è una delle tecnologie di base dei nostri occhiali sportivi. Ogni modello ha un sistema differente di sostituzione delle lenti. La forma delle lenti e della montatura interagiscono differentemente. La tecnologia Easy-Change vi permette di cambiare facilmente le lenti per adattare i vostri occhiali ad ogni condizione di luce.

Das Glaswechsel-System Easy-Change ist eine der Grundtechnologien unserer Sportbrillen. Jedes Sportbrillenmodell verfügt über eine andere Art des Glaswechsels. Die Form der Gläser und der Rahmen sind unterschiedlich. Easy-Change ermöglicht das einfache Wechseln und Anpassen an jede Bedingung.

VENTING SYSTEM

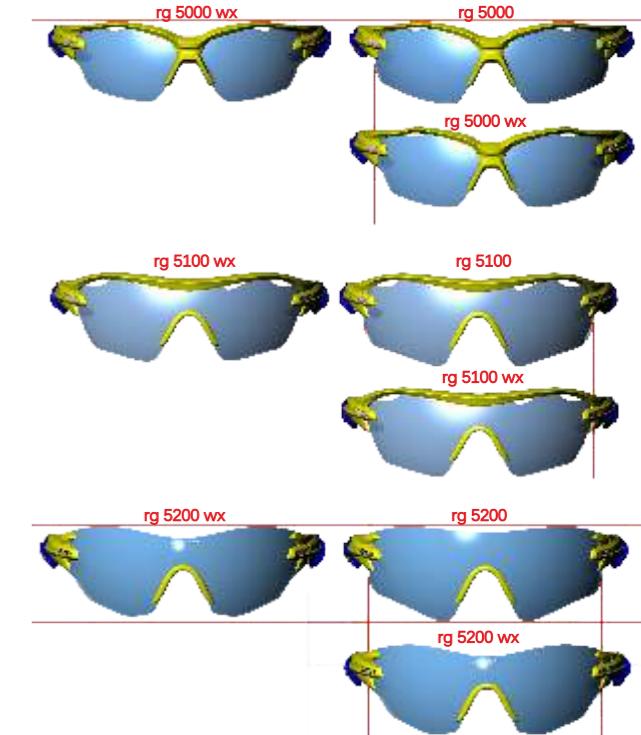

Fogging reduction for a vision of absolute transparency : ventilations from the lenses of our glasses are used to control the air flow to reduce thermal shock and prevent fogging . Thus ensuring perfect vision and optimum ventilation .

Riduzione dell'appannamento per una visione della trasparenza assoluta: le ventilazioni presenti sulle lenti dei nostri occhiali permettono di controllare il flusso d'aria per ridurre lo shock termico e impedire l'appannamento. Si assicurano così una visione perfetta e una ventilazione ottimale

Die Reduzierung des Beschlagens für beste Sicht: Die Belüftung durch die Gläser unserer Brillen dient zur Regelung des Luftstromes, um Überhitzung und Beschlagen zu verhindern. So ist für bestes Sehen und optimale Belüftung gesorgt.

PERFECT FIT

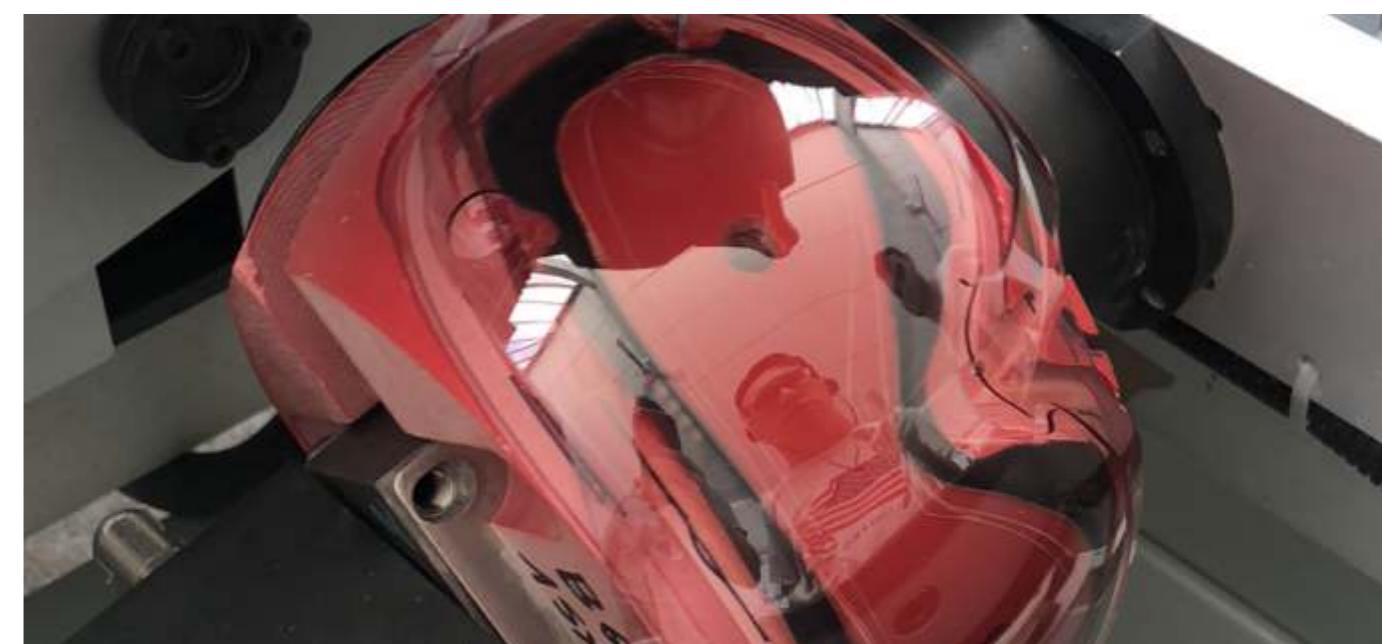

All our sport glasses have been completely studied to offer the maximum comfort and a perfect fit. Studied by highly specialized designers, the main part of our products have integrated optimal comfort solutions to adjustable temples for an absolute customisation.

They adapt to the physical characteristics of each ethnicity.

Tutti i nostri occhiali sono interamente studiati per offrire il massimo comfort e una calzata perfetta. Progettati da designer altamente specializzati, la maggioranza dei nostri prodotti integra soluzioni ottimali per il comfort ad aste regolabili per un'assoluta personalizzazione. Si adattano alle caratteristiche somatiche di ogni etnia.

Unsere Brillen sind für maximalen Komfort und perfekte Passform entworfen. Geschaffen von hochspezialisierten Designern, verfügt die Mehrzahl unserer Produkte über optimale Lösungen für besten Komfort durch verstellbare Bügel für eine optimale Anpassung. Sie passen sich an die physischen Eigenschaften ihrer Träger an.

LENSES TECHNOLOGY

For particular light conditions, SH+ offers technically advanced specialty lenses with high visual quality customized to your needs. The various lenses enable you to perform and excel in any light or atmospheric condition you may encounter.

Our lens program has features common to every type of lens, such as neutralizing ultraviolet radiation completely up to 400 nm (UV 400 protection) and maintains colors integrity even with the dark filters.

In order to meet our athletes needs, we have added to our lenses range some specific treatments including antifog, hydrophobic and photocromic technology.

A seconda delle diverse condizioni di luce, SH+ offre lenti altamente specializzate con ottimi livelli di qualità visiva atti a soddisfare le vostre necessità. I diversi tipi di lenti vi permetteranno di ottenere performance ottimali in ogni condizione di luce o atmosferica.

Il nostro programma di lenti ha caratteristiche comuni per ogni tipo di lente, quali la neutralizzazione dei raggi ultravioletti fino a 400 nm (UV 400 protection) e il mantenimento dell'integrità dei colori anche nei filtri più scuri.

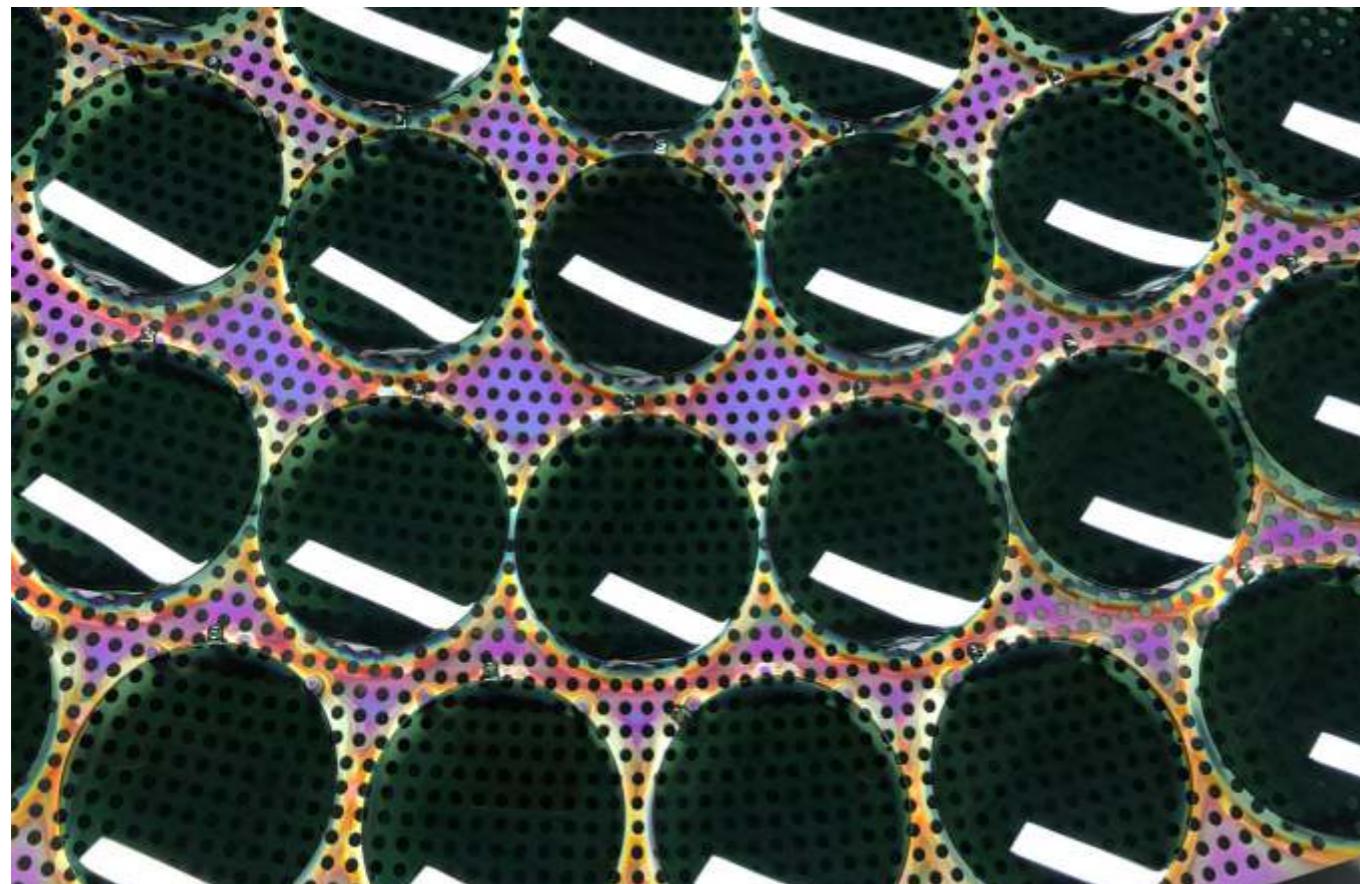

Le lenti SH+ non offrono solamente protezione agli occhi contro agenti esterni e raggi ultravioletti, ma amplificano anche la nitidezza della vista e minimizzano la distorsione, offrendo la migliore qualità per la pratica dei diversi sport.

Per venire incontro alle esigenze dei nostri sportivi, abbiamo inserito nella nostra linea di lenti trattamenti specifici, quali l'anti-appannamento, l'idrofobico ed il fotocromatico.

Für alle Lichtverhältnisse bietet SH+ technisch fortschrittliche Spezialgläser mit hoher optischer Qualität für Ihre Bedürfnisse an. Die verschiedenen Gläser ermöglichen optimale Leistung bei jedem Licht und jeder Wetterbedingung.

Unser Programm verfügt über alle Arten von Gläsern, die UV-Strahlung bis zu 400 nm (UV 400 Schutz) neutralisieren und selbst bei dunklen Tönungen die Farbtreue behalten.

Um die Bedürfnisse unserer Athleten optimal zu erfüllen, haben wir unsere Gläser einer Reihe spezifischer Behandlungen unterzogen: Das umfasst Anti-Beschlag, wasserabweisende und selbstdämmbende Technologie.

LENSES SYSTEM

In a constant technology research, the SH+ lenses grant high visibility and physical eye protection. The optic high quality lenses present several advantages:

- contrast reduction;
- UV rays protection;
- Real view, without colors distortion;
- Different weather conditions adaptability.

Sempre all'avanguardia della tecnologia, le nostre lenti garantiscono acutezza visiva e protezione fisica dell'occhio.

Le lenti ad alta qualità ottica presentano una serie di vantaggi:

- riducono il riverbero;
- favoriscono il contrasto;
- proteggono dai raggi UV;
- garantiscono una vista reale, senza distorsione dei colori;
- proteggono dagli agenti esterni.

Dank ständiger Forschung bieten die SH+ Gläser beste Sicht und besten Augenschutz. Die Qualitätsgläser haben zahlreiche Vorteile:

- Reduzierung von Blendung;
- Kontrastverstärkung;
- Schutz vor UV-Strahlung;
- Echte Sicht ohne Farbverzerrung;
- Anpassung an verschiedene Wetterbedingungen.

NO REFLEX FEATURES

Le lenti fotocromatiche SH+ offrono una nitidezza eccezionale permettendo una visibilità senza distorsioni. Grazie alla collaborazione con i nostri atleti e promoter siamo riusciti ad offrire una gamma di lenti altamente qualitativa e con tempi di reazione molto rapidi. In questo modo le performance non hanno potuto che migliorare!

SH+ photocromic lenses offer an exceptional clear view allowing a visibility without distortion. Thanks to the co-operation with our athletes and promoters we succeeded in offering high quality lenses range and dotted of very quick reaction timing. In this way they had no other chance than to improve their performances!

Die selbstdämmbenden Gläser von SH+ bieten eine außergewöhnlich klare und verzerrungsfreie Sicht. Dank der Zusammenarbeit mit unseren Athleten und Markenbotschaftern ist es uns gelungen, qualitativ hochwertige Gläser mit sehr schneller Reaktionszeit anzubieten. Daher hatten sie keine andere Chance, als ihre Leistungen zu verbessern!

REFLEX BROWN (POLARIZED)

ACTION LENSES FEATURES

Studied for sunny days and bright light conditions, the "Revo Laser" coating is a specific mirror finish offering higher sunshine protection while boasting superb cosmetic appearance.

Studiato per i giorni molto soleggiati e per condizioni di luce forte, la specchiatura "Revo Laser" è una finitura specchiata che offre una maggiore protezione dai raggi solari mentre dona un effetto estetico molto aggressivo.

Die "Revo Laser" Beschichtung ist eine spezielle spiegelnde Beschichtung, die einen höheren Sonnenschutz bietet und dabei ein hervorragendes Aussehen bietet. Sie wurde besonders für sonnige Tage und helle Lichtverhältnisse entwickelt.

RESEARCH AND DESIGN

SH+ is always looking for state-of-the-art technology to offer the consumer a better product every day. Our artisans thanks to technological materials create a comfortable, lightweight product suitable for every sport.

SH+ è sempre alla ricerca di una nuova tecnologia all'avanguardia per offrire al consumatore un prodotto ogni giorno migliore.

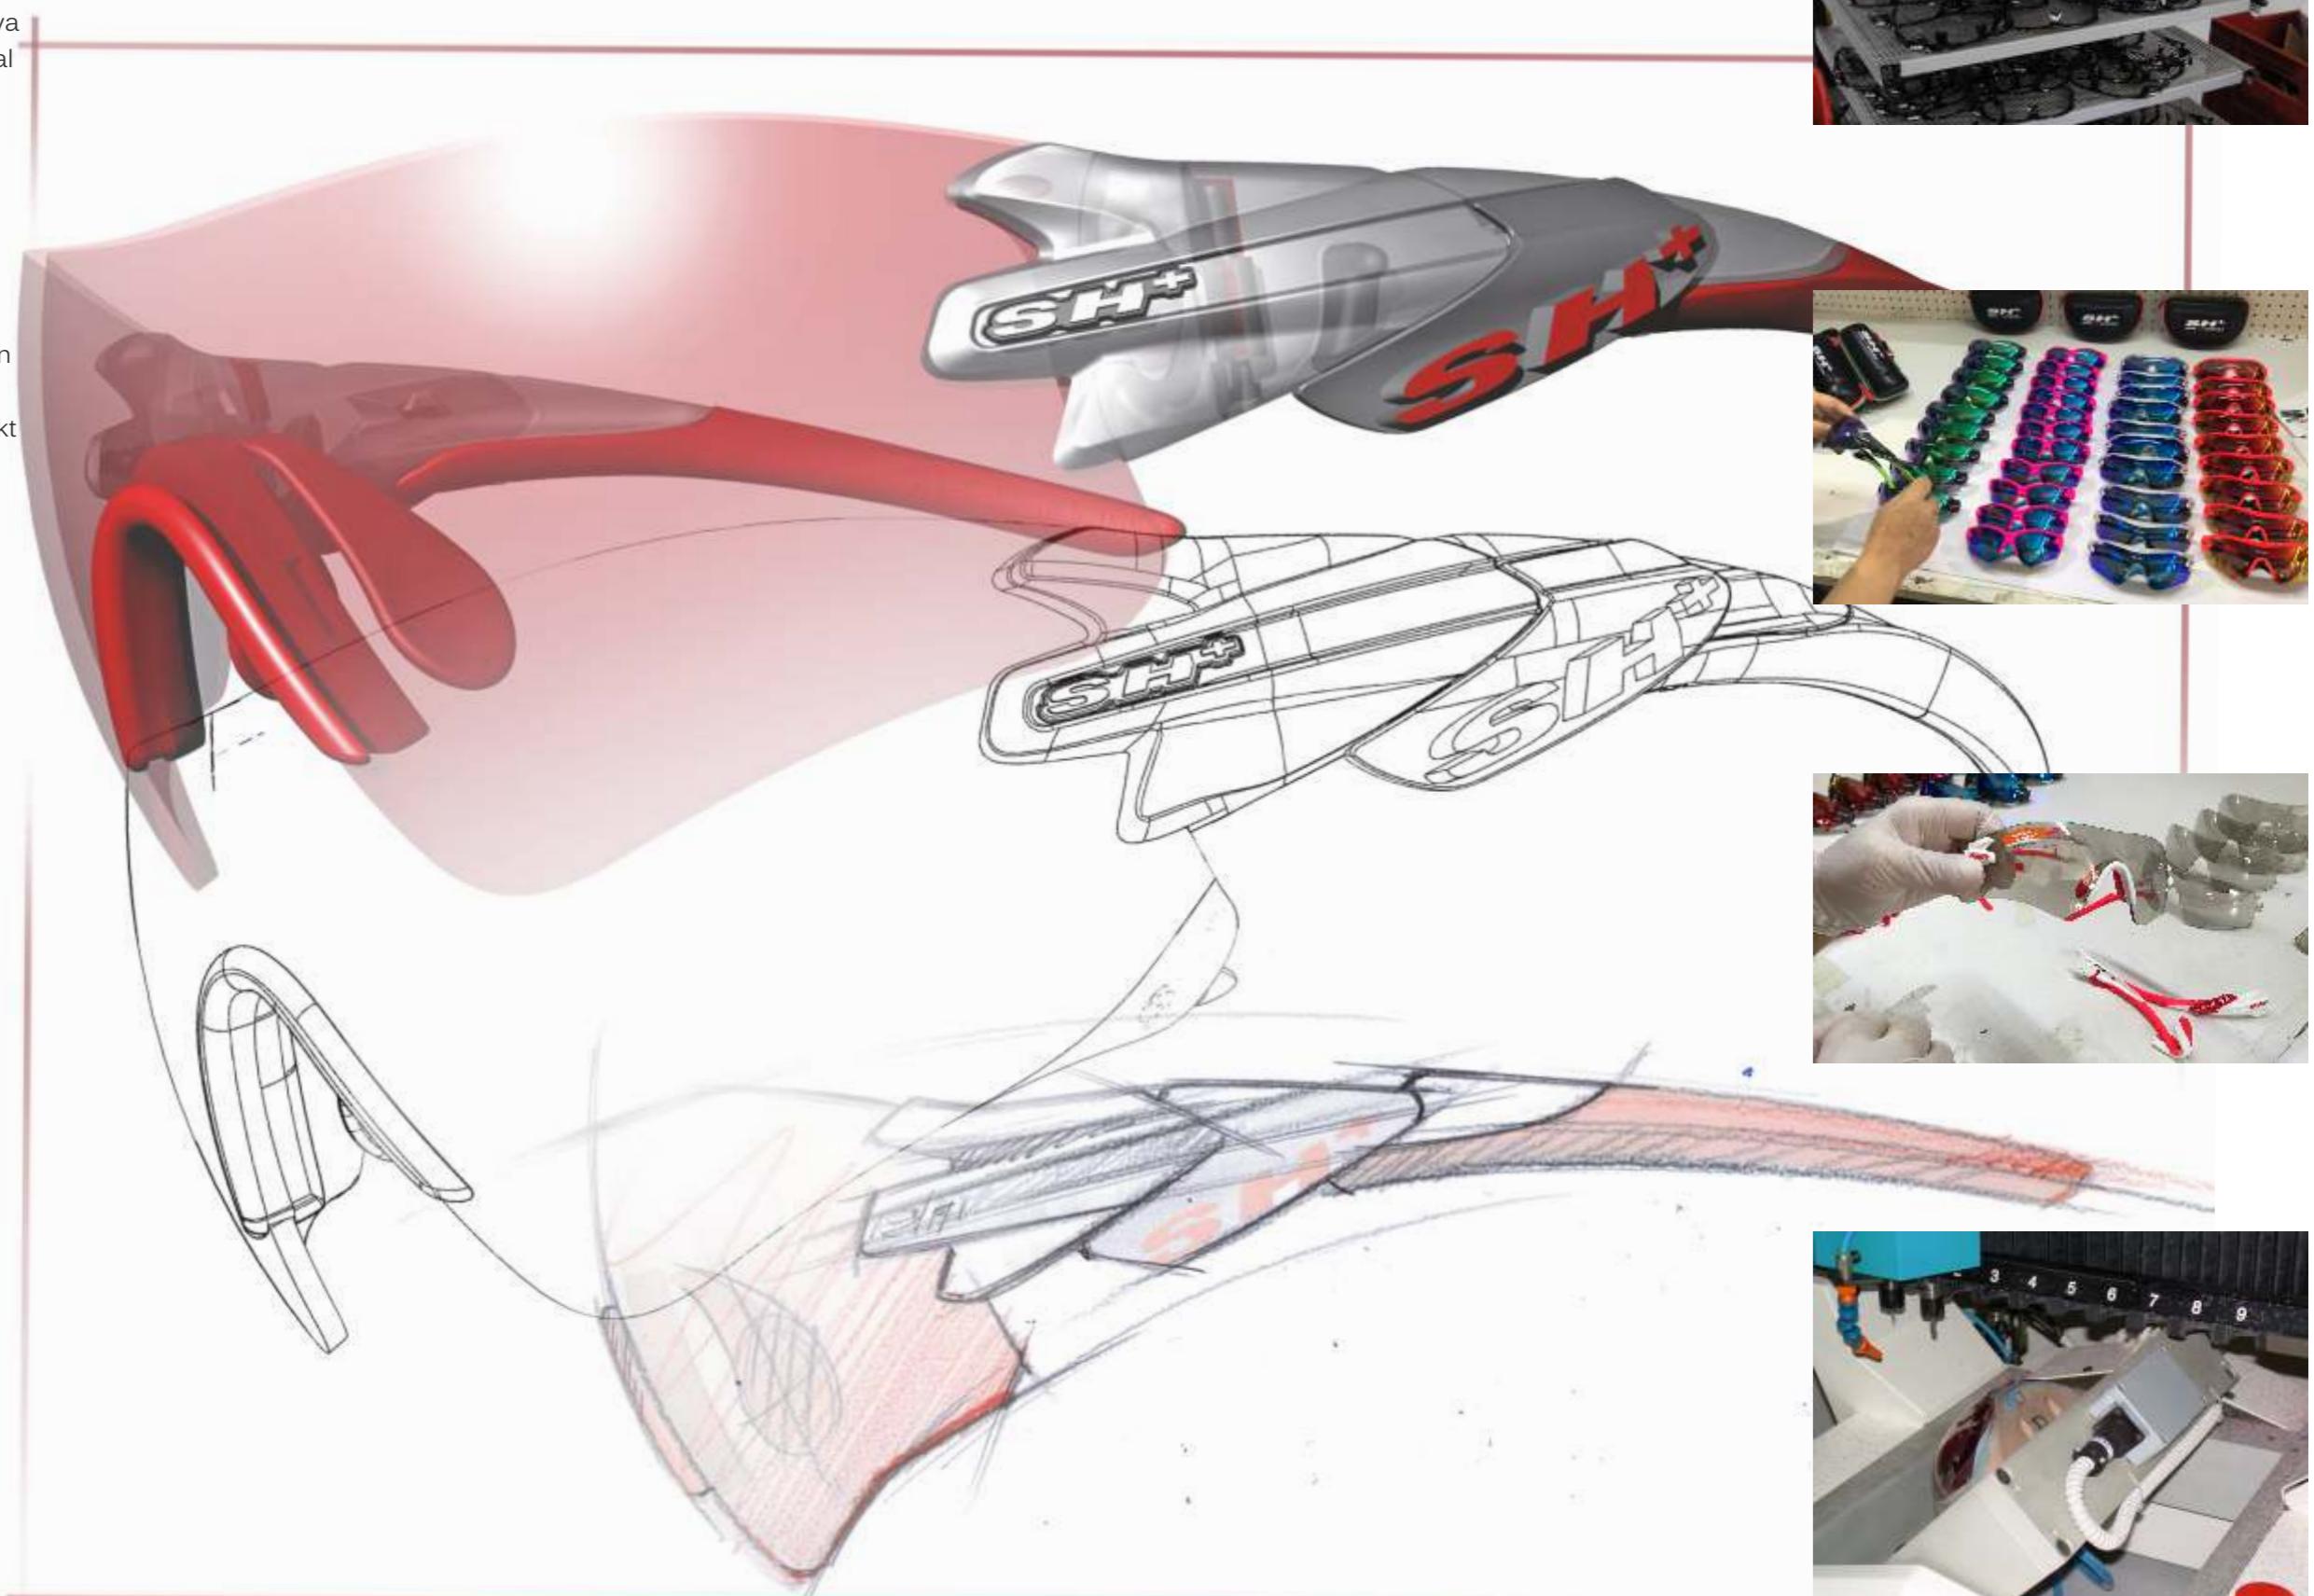

Grazie a materiali tecnologici, i nostri artigiani creano un prodotto confortevole, leggero, adatto ad ogni sport.

SH+ ist immer auf der Suche nach den modernsten Technologien, um dem Verbraucher stets ein besseres Produkt zu bieten.

Unsere Handwerker schaffen dank technologischer Materialien komfortable, leichte Produkte für alle Sportarten.

Gianfranco Melegari - Designer

PRODUCT

The SH+ sport glasses models are designed to offer maximum comfort and maximum fit. In the wide range of models, tested by professional athletes, we offer solutions suitable for all somatic features of every type of face.

I modelli di occhiale sportivi SH+ sono studiati per offrire il massimo comfort e la massima vestibilità.

Nell'ampia gamma di modelli, testati da atleti professionisti, offriamo soluzioni adatte a tutte le caratteristiche somatiche di ogni tipologia di viso.

Die Sportbrillen von SH+ sind für maximalen Komfort und Passform ausgelegt. In einer breiten Palette von Modellen, die von professionellen Athleten getestet wurden, bieten wir Lösungen für alle Gesichtsformen.
