

2025 Eyewear Workbook

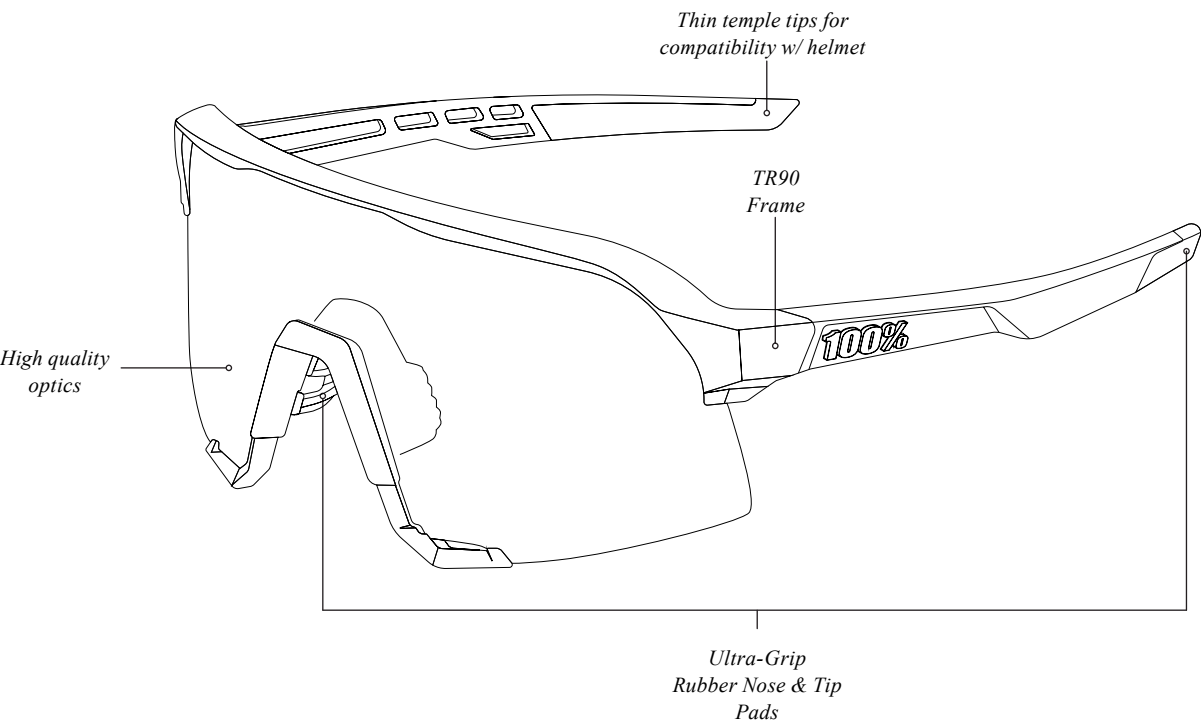

www.100percent.com
[@ride100percent](https://www.instagram.com/ride100percent)

We Deliver Vision.

100% is about Vision. What our athletes see and how we innovate. We enable athletes to see and think differently. Breaking away from convention requires imagination, innovation, and clarity. 100% eyewear provides vision and confidence. We focus on eliminating distractions at the highest levels of racing & competition.

Eyewear Technologies

Features

TR90 FRAMES
Shatterproof, high alternative bending strength, lightweight.

3DPlane™ Molded Lens
The unparalleled 3D lens design shape provides the user with the most optical clarity and enhanced protection.

ULTRA HD POLYCARBONATE LENSES
Shatterproof, impact resistant, 100% UV protection and optically flawless clarity.

PHOTOCHROMIC LENS
Reacts to the intensity of UV light and evolves lens tinting to match conditions.

ULTRA-GRIP
Rubber nose pad and tips with specifically designed patterns to increase grip.

HYDROPHOBIC + OLEOPHOBIC COATING
Water, dirt and oil repellent coating.

HiPER LENS
100%'s own technology ramps up contrast, amps up colors and enhances detail to see more of what matters.

HARD COATING
Hard coating of the highest quality prolongs the lifetime of the lenses and ensures crisp optics.

The Korbin

Meet Korbin, the pinnacle of Sport Performance eyewear innovation. At the heart of Korbin's distinctive design is our groundbreaking 3DPlane Molded Lens technology. This revolutionary advancement not only enhances its aesthetic appeal but also sets new benchmarks in optical clarity.

Designed to provide an expansive field of view, Korbin transcends traditional eyewear boundaries, offering athletes an unrivaled experience. This fusion of innovative lens technology with futuristic design principles elevates Korbin to unparalleled heights in eyewear excellence.

Features

- Designed in California
- Custom designed 3D shaped lens manufactured from high-impact resistant and lightweight polycarbonate
- 360° visibility for unobstructed views and optimal field of vision
- Interchangeable scratch resistant lenses provide 100% UV protection (UV400)
- Hydrophobic and Oleophobic lens treatment repels water, dirt and oil
- Adjustable temple tips for the perfect fit
- Durable, flexible and lightweight TR90 frame
- Ultra-grip rubber nose and temple tips provide a secure fit no matter how much you sweat
- Also available with contrast-defining HiPER lens and photochromic mirror lens
- Comes with a hard case, microfiber bag, and extra alternative fit nose pad
- Category defining ULTRA HD lens provides unmatched optical clarity

The Aerocraft

Introducing Aerocraft. The striking look of Aerocraft is attributed to the 3DPlane Molded Lens - a technology that's been implemented into our MX and Snow goggles since 2019. The unparalleled design shape provides users with the unmatched optical clarity and enhanced protection while melding seamlessly into the lightweight, flexible temples.

Features

- Designed in California
- Ultra HD lenses manufactured from high-impact resistant and lightweight polycarbonate
- 6-base cylindrical shield lens for increased peripheral view and protection
- 360° visibility for unobstructed views and optimal field of vision
- Interchangeable scratch resistant lenses provide 100% UV protection (UV400)
- Hydrophobic and Oleophobic lens treatment repels water, dirt and oil
- Adjustable temple tips for the perfect fit
- Durable, flexible and lightweight TR90 frame
- Ultra-grip rubber nose and temple tips provide a secure fit no matter how much you sweat
- Also available with contrast-defining HiPER lens and photochromic lens
- Comes with a hard case, microfiber cleaning bag, and extra alternative fit nose pad
- Category defining ULTRA HD lens provides unmatched optical clarity
- Injection-molded 2mm impact-rated, shatter-resistant lens

The Hypercraft

UltraLight. UltraPerformance. UltraCarbon™.
Featuring UltraCarbon™ technology, 100%® frameless Hypercraft® sunglass is lighter, stronger and more dynamic than any performance shield on the market. Feel Nothing. See Everything.

Features

- Designed in California
- Superior optics with Ultra HD lenses made from crack and chemical resistant material
- 5.5-base cylindrical shield lens for increased peripheral view and protection
- 100% proprietary UltraCarbon™ material for a durable, strong and lightweight frame
- 100% UV protection (UV400)
- Scratch-resistant lens coating of the highest quality
- Streamlined Laser Cut Rimless Shield with superior ventilation positioned with aerodynamic angles
- Hydrophobic and oleophobic lens treatment repels water, dirt, and oil
- Temple arm scoops to manage moisture
- Available with contrast-defining HiPER® lens and photochromic lens
- Ultra-grip rubber nose and temple tips provide a secure fit
- Ultra-lightweight of 23 grams offers ultimate performance with minimal weight
- Comes with a hard case, microfiber cleaning bag, clear replacement lens* and extra alternative fit nose pad

** not applicable for SKU's with photochromic lenses*

The Slendale SL

Loaded with the timeless style of the original Slendale, the smaller-scale Slendale SL is specifically designed for smaller faces. It's perfect for uncompromising women and young athletes who demand the same excellent field of vision and boldness as the original.

Features

- Designed in California
- Ultra HD lenses manufactured from shatter proof and impact resistant polycarbonate
- 5.5-base cylindrical shield lens for increased peripheral view and protection
- 100% UV protection
- Scratch resistant lens coating of the highest quality
- Additional lens ventilation to prevent fogging
- Hydrophobic and Oleophobic lens treatment repels water, dirt and oil
- Durable, flexible and lightweight TR90 frame
- Ultra-grip rubber nose and temple tips provide a secure fit
- Adjustable temple tips to ensure proper fit
- Also available with contrast-defining HiPER lens

The Slendale XS

The Slendale XS is engineered with a shorter lens profile and a more compact nose bridge, tailored specifically to fit the smallest faces. This design makes it ideal for athletes as young as 6 years old, ensuring they start their journey with optimal comfort and functionality.

Features

- Designed in California
- Ultra HD lenses manufactured from shatter proof and impact resistant polycarbonate
- 5.5-base cylindrical shield lens for increased peripheral view and protection

The RX Insert

Introducing the full peripheral RX Insert designed to be the ultimate vessel to firmly protect your prescription in 100% Sport Performance Sunglasses.

Features

- Large size fits Speedcraft, Speedcraft SL, and S3 models
- Small size fits Slendale, Speedcraft XS, and Norvik models.
- Clip-in nylon frame adaptor designed to receive your specific prescription
- TPE bumpers mitigate scratching of the sunglass lens and rattling during activities
- Matte translucent finish to suppress glare and light refraction
- Seamless integration with existing sunglass nose bridge for easy installation
- Geometrically enhanced fit with frame for expansive field of view
- Comes with nose bridge, nose pads, height adjustment adapter and microfiber cloth

Performance Eyewear

This nylon frame adapter is designed to receive the wearer's specific prescription and is engineered to seamlessly integrate into existing 100% eyewear.
