

ZONE3 

2026 Catalogue

We are extremely excited to let you know that ZONE3 has won a 2025 Kings Award for business enterprise in the International growth category.

We will attend a formal prize giving ceremony at Windsor Castle in July where King Charles will present our award.

Thank you for all your support over the years which have helped contribute to this achievement.

Our mission is to push the boundaries of performance through athlete-driven innovation. Every wetsuit, goggle, and accessory are rigorously tested for speed, comfort, and fit, combining elite-level design with inclusive features that meet the needs of a diverse and growing swim community. We equip our retail partners with products that deliver proven performance and commercial impact.

ABOUT ZONE3

In sport, we're constantly looking to do more, push harder, dig deeper, be better versions of ourselves. We apply the same attitude to Zone3, creating athlete-approved, performance kit for serious competitors, seasoned athletes, beginners and enthusiasts alike.

Everyone has their reasons for showing up – to train, to improve, to test the limits. At Zone3, we're here for all of it. We design performance kit that's built to meet the demands of those who give their all. Whether you're tackling your first race or striving for a new record, our products are made to support your journey, fuel your ambition, and help you feel at home in the water and beyond.

Passion meets Performance

We swim, we ride, we run. For some, it's about the thrill, the freedom, the headspace, and the sheer joy of movement. For others, it's a way of life – an identity shaped by every training session, race, and personal best. No matter where you stand, we understand that drive because we share it.

That same relentless pursuit fuels our innovation in our designs. Every product we create is the result of real-world testing, athlete insights, and cutting-edge design, built to help you move better, feel stronger, and go faster.

For over 20 years, we've been on this journey. Learning, refining, and evolving alongside swimmers, triathletes, and endurance athletes across the world. From first-toe-in-the-water to world championship titles, wherever you are on your path, we're with you – because we're just like you.

Our Founder

ZONE3, founded in 2006 by triathlete James Lock, has emerged as a leading brand renowned for its athlete-approved, high-performance gear. The company swiftly gained industry recognition for innovative products like the Aspire wetsuit, which earned top reviews and set a benchmark for quality.

Building on this foundation, ZONE3 has continued its trajectory of innovation, earning prestigious accolades such as the Queen's Award (2018) and King's Award (2024) for Enterprise in International Trade. The brand actively embraces eco-conscious design, exemplified by its B-Prene technology, further cementing its global influence in the triathlon and open water swimming communities.

Zone3's founder, James Lock was a World Champion driven by a relentless pursuit of speed, efficiency, and innovation. Turning professional, he competed at the highest level for over five years, refining his understanding of what it takes to win.

James saw opportunities for improvement in the products he was using, margins where time could be saved, efficiency gained, and performance maximized.

He started out by creating wetsuits with radical new designs and materials. This included the original Aspire wetsuit, which was literally game-changing. Not just for James and his fellow pro athletes: it turned out everyone wanted a wetsuit that was easier and more comfortable to wear, and allowed them to get more from their sport at every level. Two decades later, those same products, evolved and optimized, remain industry leaders, setting the benchmark for performance swimwear.

Why choose ZONE3?

- + A collection of the highest-rated products on the market.
- + Developed and perfected by athletes.
- + The highest quality product whilst maintaining affordable pricing.
- + Superior brand imagery and product assets.
- + Highest standards in customer service.
- + Committed to developing sustainable products.

Design. Develop. Innovate.

■ ■
As close to perfection as you can get with a wetsuit.

Vanquish Wetsuit
Triathlon Plus

What make us different?

From first timers to elite-level triathletes, the athlete has always been at the centre of our design process, constantly striving to help them succeed.

At the very beginning this was a personal motive as founder and elite triathlete, James Lock, looked to gain an advantage over the opposition.

This passion and motivation runs through every product in our range today, supporting athletes in all aspects of their racing, training and lifestyle.

In addition to reworking and adding new technologies and innovation to existing products, we have also added some exciting new, cutting-edge products to ensure we remain at the forefront of product development and innovation.

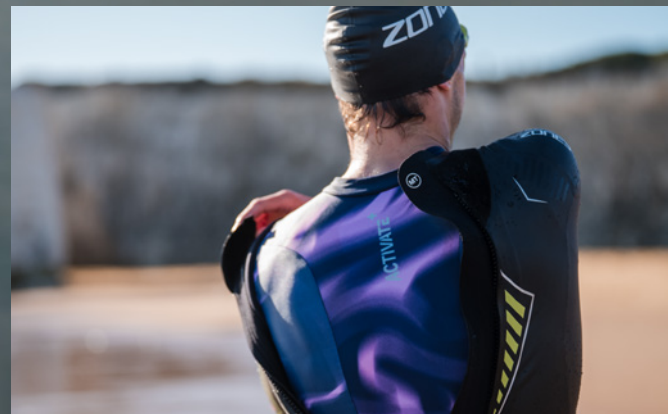

ZONE3 Corporate Social Responsibility Commitments

We're committed to making a positive impact, both in the water and beyond. That means protecting the environments we swim in and supporting the communities who make our sport what it is.

Environmental Innovation with Purpose

We don't believe in shortcuts or surface-level claims. Our commitments are rooted in innovation, transparency, and a drive to keep improving.

Leading the way in eco wetsuit technology

YULEX® Natural Rubber

Zone3 was the first triathlon brand to introduce YULEX®, a renewable plant-based alternative to neoprene. Derived from FSC-certified Hevea tree sap, YULEX® reduces CO₂ emissions by up to 80% per suit without compromising on performance.

Biodegradable Neoprene

In a triathlon-first, two of our high-performance wetsuits now feature groundbreaking biodegradable rubber from Yamamoto. This material begins to break down after use—biodegrading by 30% in just 522 days—while matching the responsiveness and quality of traditional SCS neoprene.

Smarter Materials Across the Range

We continue to use Yamamoto neoprene throughout our entire performance wetsuit collection. This premium material is derived from earth-mined limestone, replacing petroleum-based alternatives.

Yamamoto's highest-grade limestone contains 99.7% pure calcium carbonate, offering exceptional flexibility, buoyancy, and durability—while significantly lowering environmental impact.

We also integrate:

Recycled Carbon Black (from end-of-life tyres), reducing CO₂ emissions by approximately 200g per wetsuit.

Water-based glue, eliminating the need for harmful solvents in seam bonding.

Recycled linings, made from repurposed polyester—up to 45 plastic bottles are recycled into the lining of every wetsuit.

Charity Partnerships: Creating a Greater Ripple Effect

We're proud to support two organisations making waves in access, wellbeing, and environmental protection:

Level Water – A charity unlocking the power of swimming for children with disabilities by providing 1-to-1 swimming lessons across the UK.

Surfers Against Sewage – A movement fighting for cleaner seas and rivers, tackling pollution, and advocating for thriving ocean ecosystems.

Through fundraising, product support, and campaign collaborations, we're helping these causes reach further, because performance means more when it gives back.

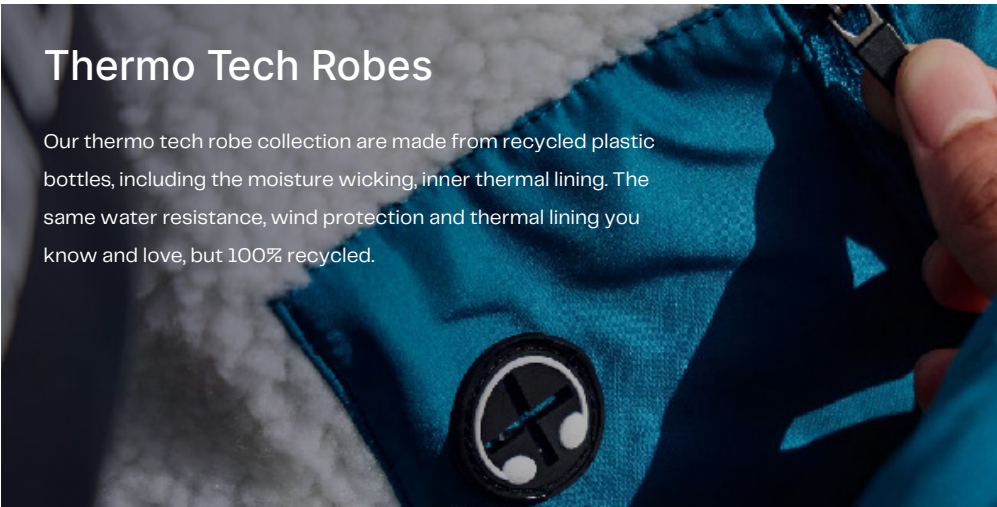

Natural, Renewable, Traceable - Yulex®

Recycled Product Development.

Thermo Tech Robes

Our thermo tech robe collection are made from recycled plastic bottles, including the moisture wicking, inner thermal lining. The same water resistance, wind protection and thermal lining you know and love, but 100% recycled.

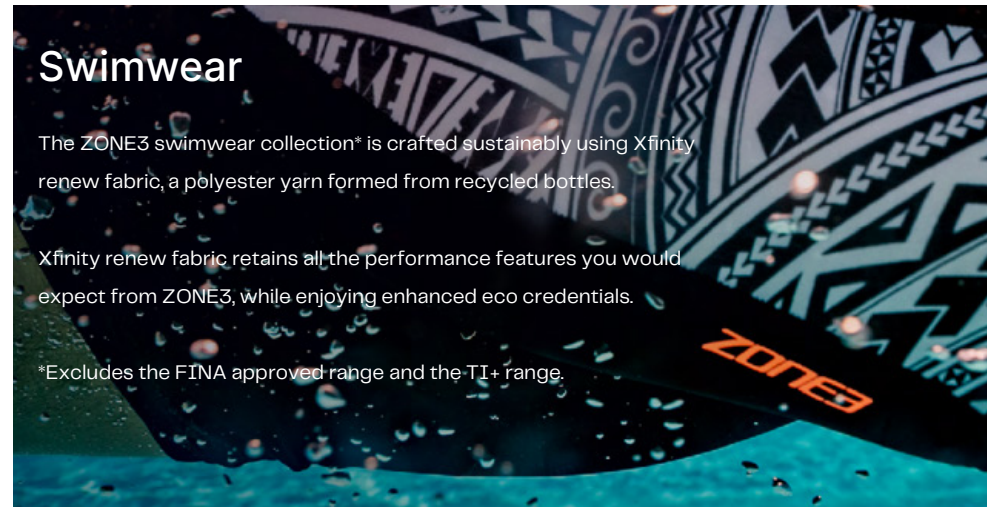

Swimwear

The ZONE3 swimwear collection* is crafted sustainably using Xfinity renew fabric, a polyester yarn formed from recycled bottles.

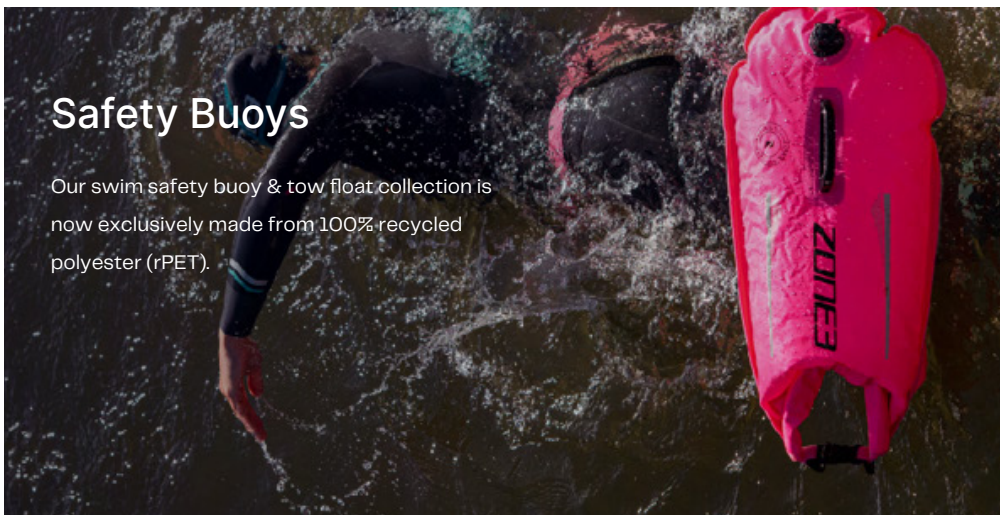

Xfinity renew fabric retains all the performance features you would expect from ZONE3, while enjoying enhanced eco credentials.

*Excludes the FINA approved range and the TI+ range.

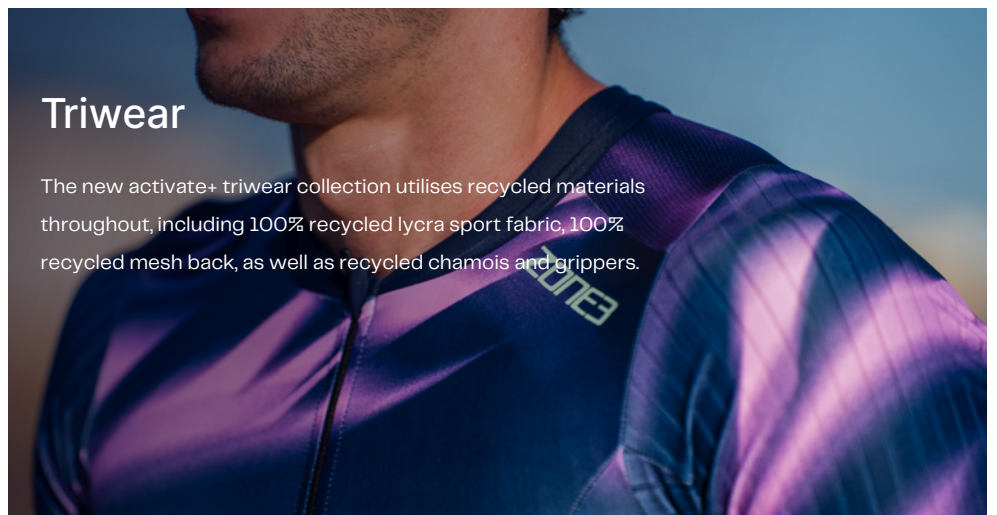

Safety Buoys

Our swim safety buoy & tow float collection is now exclusively made from 100% recycled polyester (rPET).

Triwear

The new activate+ triwear collection utilises recycled materials throughout, including 100% recycled lycra sport fabric, 100% recycled mesh back, as well as recycled chamois and grippers.

Wetsuits

Introducing a collection of multi award winning wetsuits. Each style has been refined and improved over the last fifteen years and our reputation continues to grow as being the best triathlon wetsuit brand in the world.

Designed for beginners all the way through to elite athletes, each suit offers the very best performance, comfort and it for the given price point.

AQUA DYNAMIC COATINGS

All our suits are coated with an aqua dynamic covering which significantly minimises any drag through the water as well as improving durability.

ULTRA THIN & LIGHTWEIGHT

We developed a neoprene that is extremely lightweight, thin and comfortable, allowing the user to feel as if they aren't wearing a wetsuit at all.

BIODEGRADABLE NEOPRENE

Selected wetsuits combine earth mined limestone with scrap rubber tyres to reduce energy consumption and CO2 emissions by 200g per suit.

We are pleased to be the first tri brand to introduce biodegradable rubber, a ground breaking leap forward in performance wetsuit manufacturing.

HIGHLY DURABLE

Designed for speed, flexibility and a natural feeling swim; all without loss of strength. Our wetsuits are extremely durable and made to last as part of our commitment to the athlete.

PRO SPEED CUFFS™

Pro Speed™ arm and leg cuffs use a specifically formulated silicone coating to make the wetsuit come off extremely quickly. Perfect to increase transition speed.

BIO RUBBER

With exclusive use of the Bio Rubber material on our Vanquish-X wetsuit, this cutting edge material collects energy from the atmosphere and re-emits this energy for absorption into the body. A design proven to increase blood flow, reduce lactic acid build up and fatigue.

SPRING LOADED DESIGN

All our suits offer a spring loaded shoulder design to generate a more rhythmic swim stroke, enabling faster and more energy efficient swimming.

MEASURED BUOYANCY

All our suits feature balanced neoprene thickness to give you maximum buoyancy and core support without disturbing your stroke.

UNPARALLELED FLEXIBILITY

The Yamamoto neoprene used in all our wetsuits has been developed to allow for maximum flexibility with a 4-way stretch. This provides unrestricted movement stroke after stroke, minimising fatigue and muscular tension in the shoulders, chest, abdomen and legs.

Vanquish-X Wetsuit

WS22MVAN101 (Black/Orange)
WS22WVAN101 (Black/Coral)

- + GLOBAL EXCLUSIVE AGREEMENT with Yamamoto Corporation for use of Bio-Rubber material which is incorporated on front thighs and back lumber of the Vanquish-X
- + X-10 EXTREME SHOULDER PANEL design with new #40 SCS 1mm.
- + MAXIMUM BUOYANCY with Aerodome and NBR panels.
- + BRS MARK 0.3MM SCS on the sleeve for an ultra-lightweight arm rotation.
- + UPDATES TO THE COLLAR and leg design to improve the fitting.
- + NEW ALPHA TITANIUM LINING on the upper body to improve circulation and warmth as well as SILK X to aid smoother transitions.
- + B.R.E BODY ROTATION ENHANCEMENT on the chest to improve distance per stroke.
- + SCS COATING throughout improve the hydrodynamics of the suit.
- + COOL-SPOT FOREARM PANELS for improved feel and catch in the water.

Vanquish-X Wetsuit

The Vanquish-X takes performance to a completely new level. Highly regarded as one of the best triathlon wetsuits in the world, the key selling features of the Vanquish have not changed. However, the most recent version includes revolutionary Bio-Rubber materials on the thighs to improve blood flow and an Alpha Titanium lining on the upper body to improve warmth and circulation.

*the limited edition Vanquish X come with exclusive venator x goggles, swim cap and transition backpack bundle.

This suit is fast, comfy and the new improved features make it a stand out suit to race and train in. I would 100% recommend it.

Tim Don
4X ITU World Champion

Biodegradable Neoprene

We're proud to maintain our position at the forefront of sustainable innovation with the introduction of our second suit made from biodegradable neoprene: the Aspire. Crafted from Yamamoto's groundbreaking biodegradable material, this new addition expands our collection and solidifies our commitment to eco-conscious practices.

The cutting edge rubber biodegrades by 30% in 522 days once it reaches its end of life, while retaining the performance capabilities of the widely adopted Yamamoto SCS material utilised in other prominent suit designs.

The ultra-stretch material allows for a maximum range of motion, your best. Perfect for beginners, experienced swimmers and those providing you with the freedom to move unrestricted and perform at looking to upgrade to a higher performance, or more flexible wetsuit.

Men's Aspire Wetsuit

WS25MASP101 (Black/Chalk)

Women's Aspire Wetsuit

WS25WASP101 (Black/Chalk)

Aspire Wetsuit

- + Now in ground breaking biodegradable neoprene.
- + Silk X lining – To aid smoother transitions and provide unrivaled comfort against the skin.
- + X-10 Extreme – Enhanced integrated one-piece shoulder and chest.
- + Forearm panels for improved feel and catch in the water.
- + Aerodome buoyancy panels on the legs and hips.
- + Improved laser-cut collar design.
- + Made with 100% Premium Yamamoto materials for comfort & flexibility.
- + Pro Speed Cuffs for rapid removal after the swim save you vital time on any course.
- + SCS SM coating.
- + Designed for a fast, smooth and natural feeling swim.
- + Comes with a free mesh storage bag

Men's Vision Wetsuit

WS24MVIS101 (Black/Forest Green)

Women's Vision Wetsuit

WS24WVIS101 (Black/Eucalyptus Green)

Vision Wetsuit

- + Ground-breaking biodegradable neoprene, and an adapted buoyancy profile.
- + X-10 one-piece shoulder panel design extends across the chest and shoulders to give even more flexibility and stroke efficiency.
- + B.R.E Body Rotation Enhancement panel on the front chest to help maximise distance per stroke and body roll during the swim.
- + Use of 10 different materials to maximise performance, comfort and durability.
- + Men's suit featuring 5mm buoyancy panels on the torso and front legs as well as Aerodome on the hip panels to offer significant core support.

A BRILLIANT ALL-ROUNDER THAT COMES AT A GREAT PRICE

220 Triathlon Magazine

Advance Wetsuit

A huge step forward has been made for the Advance wetsuit including the use of the world's highest performance YAMAMOTO foam. Recognised as the best entry-level wetsuit on the market, the Advance takes performance to the next level, and maintains a premium look at a reasonable price point.

The Advance is an amazing value suit that certainly doesn't lack in performance – punching well above its price tag. The perfect suit for open water swimmers or triathletes Looking for a high performance entry-level wetsuit.

- + Yamamoto #39 SCS Free-Flex shoulder panel.
- + Weight reduced by 16% versus the previous version whilst offering same buoyancy and warmth.
- + Use of 10 different materials to maximise performance, comfort and durability despite the low price point.
- + A mixture of SCS and Smoothskin used according to the panel position.
- + 4mm buoyancy panel on torso and legs for core support.
- + Pro-Speed cuffs on the legs for easy removal.
- + Laser-cut collar.
- + Raglan sleeve panel layout for flexibility and stroke efficiency.
- + Premium graphics including black gloss and gunmetal finishes contrasting with contemporary colour contrasts.

Men's Advance Wetsuit

WS25MADV101 (Blue/Silver/White)

Women's Advance Wetsuit

WS25WADV101 (Green/Silver/White)

Agile Wetsuit

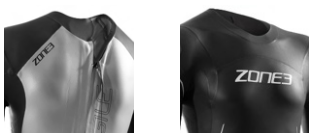

The Agile was created to meet the growth in demand of a high quality, entry-level wetsuit.

- + No Flatlock stitching. Fully glued and blind stitched to ensure waterproof seams, flexibility through the suit and no internal seam discomfort.
- + No nylon neoprene panels. The Agile is made from a mixture of Speedflo and Smoothskin coatings to ensure water doesn't enter the suit or get heavy and cause drag.
- + Performance focus. Like all ZONE3 products, even though the materials and thickness can't compare with the likes of our Aspire, the Agile is designed for speed and comfort.
- + Talon Resistant Coating. A unique formula applied to the leg and side panels to improve durability and reduce customer service or warranty questions when beginners create fingernail tears by accident
- + 2mm Flex-Fit shoulder panels for flexibility and a 4mm legs panel for core buoyancy support
- + A combination of 2mm, 3mm and 4mm panels and appropriate linings to offer a well-balanced and comfortable swim.
- + Slimline Pro Speed Cuffs for speed of removal.
- + Modern styling and graphics which align with our Advance and Vision models.

Men's Agile Wetsuit

WS21MAGI116 (Black/Silver)

Women's Agile Wetsuit

WS21WAGI114 (Black/Turquoise/Pink)

Men's Active-Flex Wetsuit

WS25MACTF101 (Black/Orange)

Women's Active-Flex Wetsuit

WS25WACTF101 (Black/Orange)

Active-Flex Wetsuit

The Active-Flex wetsuit can be used to swim, surf and paddle board in water temperatures from 15 to 21c.

A combination of 3mm and 2mm high stretch neoprene offers superior flexibility for a range of activities and swimming strokes, while the 3mm Yulex chest panel provides warmth where it matters most.

Smoothskin panels on the shoulders and upper arms deliver greater hydrodynamics when swimming in the suit. Double lined neoprene features throughout the rest of the wetsuit which is durable and warm.

Finally, abrasion resistant kneepads are utilised on the knees allowing the suit to be using for boardsports.

- + Smoothskin panels on upper arms and neck for increased glide in the water.
- + Centre back zipper with extended makes changing in and out of the wetsuit easy.
- + 3mm YULEX chest panel.
- + High stretch panels at crotch to allow for increased movement during breaststroke (use Aspect for reference).
- + Abrasion resistant pads at knees.
- + Centre back zipper with extended zip pull

Ascend Sleeveless Wetsuit

The Ascend Sleeveless Wetsuit is designed for both new and experienced open water swimmers, including triathlon first-timers and pool swimmers looking to venture outdoors. It aims to provide performance, comfort, and durability for going the distance. Key features include flexibility and unrestricted movement, a balanced buoyancy profile to improve body position and conserve energy, and durable materials with a comfortable soft-touch neckline and smoothskin finish to reduce chafing. Overall, the wetsuit is built to support natural movement, promote efficient technique, and instill confidence through its fit, float support, and speedflo coating.

Ascend Sleeveless Wetsuit

Women: WS26WGLISL101 (Black/Grey)
Men: WS26MGLISL101 (Black/Grey)

Key Features:

- + **Multi-Thickness Design:**
Combines 2mm and 3mm panels for a balanced profile in the water.
- + **Smoothskin fabric**
used to prevent water from permeating the suit and weighing it down.
- + **Waterproof Coating:**
Speedflo coating for reduced drag in the water.
- + **Glued and Blind Stitched Construction & flatlock:**
Ensures no water ingress at seams and increases comfort and warmth.
- + **Combination of Speedflo, Smoothskin and Double lined neoprene** provide flexibility and durability.

Women's Versa Swim Run Wetsuit

WS25WSRV101 (Black/Orange)

Men's Versa Swim Run Wetsuit

WS25MSRV101 (Black/Orange)

Versa Swim Run Wetsuit

The multi-purpose Versa wetsuit is extremely versatile in design making it ideal for paddle sports such as Standup Paddleboarding, Surf Lifesaving, Swimrun events or any other water-based adventuring.

- + Flatlock construction throughout for comfort and flexibility.
- + 50% Yulex Natural Rubber / 50% Smoothskin Neoprene.
- + 2mm Thickness throughout provides flexibility and warmth.
- + Durable double lined 2mm YULEX for warmth, stretch and abrasion resistance.
- + 2mm Smoothskin on front for increased glide in the water.

Advance Thermal Wetsuit

*Design subject to change

Recognised as the best entry-level wetsuit on the market, the Advance takes performance to the next level, and maintains a premium look at a reasonable price point. Now available in a thermal version, with upgraded heat-tech thermal lining.

More and more swimmers want to extend the open water swimming season, starting early and finishing later, so this is the perfect suit. The suit is suitable for anybody swimming in waters between 10–18 Celsius.

Men's Advance Thermal Wetsuit

WS25MADV101 (Blue/Silver/White)

Women's Advance Thermal Wetsuit

WS25WADV101 (Green/Silver/White)

- + Yamamoto #39 SCS Free-Flex shoulder panel.
- + Use of 10 different materials to maximise performance, comfort and durability despite the low price point.
- + A mixture of SCS and Smoothskin used according to the panel position.
- + 4mm buoyancy panel on torso and legs for core support.
- + Pro-Speed cuffs on the legs for easy removal.
- + Laser-cut collar.
- + Raglan sleeve panel layout for flexibility and stroke efficiency.
- + Premium graphics including black gloss and gunmetal finishes contrasting with contemporary colour contrasts.
- + Heat-Tech Thermal lining.

Yulex®

Designed for your wild swimming, surfing, or paddle boarding adventures, the ZONE3 Yulex® Swimwear range will keep you warm without that restrictive wetsuit feeling. It is eco-friendly too; by using natural rubber, the suit's CO² emissions are reduced by up to 80%.

In response to our consumer feedback, we have extended our size range to be more inclusive, meeting the needs of the growing and diverse open water swim community.

Designed for more recreational Open Water swimmers rather than performance speed swimmers.

Yulex® swimwear products offer great versatility, they can be used as an outer or base layer for added warmth.

- + Provide freedom of movement and comfort whether you are wild swimming, surfing, or paddle boarding.
- + 100% recycled polyester outer and inner fabric. Further enhancing the garment's eco credentials.
- + 1.5mm Yulex® Natural Rubber.
- + 1.5mm thickness provides warmth and protection from the elements.
- + Flatlock seams.

Robes

Our 100% Recycled Thermo Tech Robes are your essential companion when you're by the water's edge. Giving you instantaneous insulation before and after all of your training sessions and open water activities.

Thermo Tech Changing Robes

Thermo Tech Changing Robe

CW25URTTOR106
(Blue/Grey/Orange)

Our 100% recycled Thermo Tech Changing robe is your essential companion when you're by the water's edge. Its versatile design protects you from the elements and keeps you warm, whatever the activity. Perfect for outdoor changing, wearing as a relaxed outer layer or keeping warm between swims, the robe offers a comfortable and weatherproof fit which has now been updated to have a more tapered fit but still allows space for changing.

- + Recycled inner lining and outer shell.
- + Updated colourway & graphics.
- + Improved tapered fit for warmth and ease of movement.
- + New Sherpa fleece lining wicks moisture away and traps body heat in.
- + The outer shell features BIONIC-FINISH[®] ECO, a fluorine-free water repellent coating for ultimate performance.

Active Flex Parka Robe

Active Flex Parka

(Black/Orange)

Now featuring a recycled Fleece on the interior. The water and wind resistant outer Water-Block shell further enhances this, stopping wind or water from penetrating the jacket. Perfect for outdoor changing, wearing as a relaxed outer layer or keeping warm between swims, the robe offers a comfortable and weatherproof fit.

The ZONE3 Recycled Changing Robe is an essential companion for all open water activities and has been updated to recycled materials. Whether you are swimming, paddle boarding or spending the day on the beach, it offers the warmth and protection from the elements you need after taking on the cold open water.

- + Fitted hood.
- + 100% Recycled outer shell is breathable, water resistant and provides wind protection whilst allowing moisture to escape.
- + Full length sleeves.

- + Front and internal pockets to keep your hands warm and valuables safe.
- + Two-way YKK zipper with pull cords for easy use.

Microfibre Changing Robe and Towel

 **Microfibre Changing Robe**
OW25UMFP123 (Khaki)

 **Microfibre Changing Robe**
OW25UMFP123 (Grey Tonal)

- + Crafted from lightweight microfibre materials
- + Equipped with a convenient kangaroo pocket
- + Seamlessly designed with discreet internal access
- + Shoulder to hem = 104cm
- + Width = 87cm

A close-up photograph of a man with dark, wet hair and a beard, smiling broadly. He is wearing a dark neoprene wetsuit with orange accents. The background shows the ocean and a bright sky, suggesting a coastal or beach setting.

Neoprene Apparel & Accessories

Designed for swimmers who train year-round, our neoprene apparel and accessories help you stay warm and comfortable in cooler conditions. Whether you're in a chilly, unheated pool or tackling open water when it's too warm for a full wetsuit, neoprene provides the perfect balance of warmth, flexibility, and comfort. From suits to gloves, caps, and more—this range keeps you going, no matter the season.

Buoyancy Shorts

Active-Flex Buoyancy Jammer

NA24UABS101 (Black)

Active-Flex Buoyancy Jammer: Enhance Your Swim Technique
Introducing the Active-Flex Buoyancy Jammer, perfect for beginner swimmers! This innovative alternative to pull buoys improves body position and swim technique for a natural feel. With enhanced core support and a design by ZONE3, it helps you develop skills and achieve improved performance in the water at a great value price.

The Originals: 5/3mm

NA18MBSO101 (Black/Blue)

Made from top quality Yamamoto Smoothskin neoprene and stitched and bonded the same way as our wetsuits. Designed using 3mm neoprene down the centre and 5mm neoprene on the sides. The shorts offer core body buoyancy and help to promote hip rotation.

The Premium Option: 5/3mm

NA18MBSP101 (Black/Red)

The Premium version uses a mix of Yamamoto #39 SCS (front/back) and Yamamoto SCS Aerodome (sides) for a softer, lighter, and more flexible fit. This provides increased buoyancy and hip rotation, making it ideal for swimmers with heavy legs.

Heat-Tech Accessories

Heat-Tech Swim Cap

NA21UHTC116 (Black/Silver/Red)

A thermal version to complement our socks and gloves. 4mm in thickness with fleece lining to help get through those colder swims.

Heat-Tech Swim Socks

NA18UHTS101 (Black/Silver/Red)

Our warmest sock made from a slightly thicker neoprene with a thermal lining for improved insulation. There is a zip on the side for a snugger fit, and easier access. The socks also have a Velcro strap to help minimise water entry and a gripped sole.

Heat-Tech Neoprene Swim Gloves

NA18UHTG101 (Black/Silver/Red)

Our warmest glove made from a slightly thicker neoprene with a thermal lining for improved insulation. Constructed using liquid seal waterproof seams to help prevent water entry with a Velcro strap and longer Lycra sleeve to enable a secure fit.

Heat-Tech Mitts

NA24UHTM101 (Black/Silver/Red)

Our warmest glove made from a slightly thicker neoprene with a thermal lining for improved insulation. Constructed using liquid seal waterproof seams to help prevent water entry with a Velcro strap and longer Lycra sleeve to enable a secure fit.

2026
NEW
DESIGN

Heat-Tech Dura Swim Boot

NA26UHTDS101 (Grey)

- + 4mm Neoprene
- + Durable Textured Rubber Sole for grip and durability
- + Heel Pull Loop for easy entry
- + Ankle Gasket & Hook-and-Loop Fastening
- + Watertight Seams
- + UK Shoe Sizing

Neoprene Accessories

Neoprene Headband

SA20UNHB101 (Black)

The ZONE3 Headband is constructed using 2mm thick high performance neoprene for warmth and low-profile Velcro for fit adjustment. A perfect addition to any cold water swim; helping to keep your ears and head warm.

Active - Flex Swim Cap

NA25UASC104 (Grey)

- + GBS Construction

Open Water Accessories

Recycled 28L Safety Buoy / Dry Bag

Now made with 100% rPET (recycled polyethylene terephthalate), the ZONE3 dry bag features dual air bladders that inflate around the storage compartment with a large 28L capacity. The adjustable dual belt design attaches securely around the swimmer's waist and the leash ensures that the product remains out of your stroke range whilst swimming. In addition, the buoys now have reflective logos for added visibility.

**Recycled 28L
Safety Buoy or Dry Bag**

SA23RSBDB113 (Hi-Vis Orange)

**Recycled 28L
Safety Buoy or Dry Bag**

SA23RSBDB114 (Hi-Vis Pink)

Recycled Swim Safety Buoy / Tow Float

Now using 100% Recycled Polyester (rPET), this tow float design is perfect for new open water swimmers or those who are required to wear them during races or training sessions. The tow float lacks any storage area and is smaller than our bestselling 28L Safety Buoy Dry Bag but still does give great visibility and functionality with a leash strap and carry handle. In addition, the Buoy's now have reflective logos for added visibility.

Recycled Swim Safety Buoy or Tow Float

SA23RSBTF113 (Hi-Vis Orange)

Waterproof Phone Pouch

SA21WPP113 (Hi-Vis Orange)

- + Waterproof Phone Pouch: Ideal for keeping phones safe during open-water activities.
- + Provides an extra layer of security, ensuring phones stay dry.
- + Easy to use.
- + Perfect for open-water activities.
- + Pairs well with Swim Safety Buoy & Dry Bag.
- + Fits phones up to 6.7 inches (without a case).

Recycled On The Go Swim Buoy

SA24OGSB113 (Hi-Vis Orange)

- + **On-the-Go Access:** Conveniently access the dry bag's contents, such as drinks, snacks, or valuables, without pausing or coming ashore.
- + **Enhanced Visibility:** Improves swimmer visibility in open water for added safety.
- + **Adjustable Waist Belt:** Provides a secure and comfortable fit during use.

Wetsuit Changing Mat

RA24WSCM101 (Black/Orange)

- + Durable waterproof construction.
- + Allows for changing on a variety of landscapes.
- + Unfolds into a circle with a raised edge keeping everything inside.
- + Drawstring allows mat to turn quickly into a bag.
- + Includes carry case.

Other Accessories

100% Natural Glide

NA18UGLI107 (Black/White)

Made in Canada with 100% natural ingredients to prevent chafing and irritation, inflammation and skin problems caused by friction such as blisters, skin burns and dehydration.

Goggles

**High performance goggles
—for pool and open water
swimming.**

It took years of testing to find the perfect goggles to complement the ZONE3 range. They are packed full of great features, including 100% UVA/UVB protection and wide angle anti-fog lenses. We pride ourselves on offering a range of lens types that offer clarity in all types of swimming; There is a style and shape to suit every swimmer.

ULTRA-SOFT GASKET

Ultra-soft silicone gaskets are used on all our goggles; perfect for long distance swims and protecting against wayward limbs. They provide a brilliant seal whilst causing less pressure around the eye.

POLARIZED LIGHT MANAGEMENT SYSTEM

We use premium polarized lenses that reduce the effect of glare from the water and surrounding objects; producing fantastic clarity in all weather.

100% UVA/UVB PROTECTION

All our goggles offer 100% UVA/UVB protection; blocking out the sun's harmful rays.

HORIZON

HORIZON

Our wide angle lenses feature a one-piece curved surface to aid your peripheral vision whilst swimming. This unrestricted view allows you to concentrate on your technique and gives you the full picture of what's around you.

eclipse

ECLIPSE

Our most advanced technology. Utilising photochromatic technology to automatically adjust to changing light conditions. The weather is an untameable and fickle force that can have a great effect on your performance. By reacting to changes in the brightness levels, our eclipse lenses ensure uninterrupted vision whilst outside.

LUCID

LUCID

Ultra clear lenses that utilise a combination of the latest polycarbonate materials and high quality finishes to reduce fogging and guarantee crystal clear vision in all conditions. Paired with our Polarized Light Management System, our goggles offer unparalleled clarity of vision.

Volare

Volare racing goggles is the ultimate hybrid goggles, the low-profile design and performance of a pool racer is perfectly complemented by the comfort afforded by the cushioning of the ultra-soft silicone gaskets usually only featured in open water swimming goggles. This allows the Volare to give outstanding performance in the pool and open water.

- + Interchangeable nose bridge for customised fit.
- + LUCID lenses with anti-fog treatment.
- + HORIZON wide angle lenses.
- + Ultra-soft silicone gaskets for comfort and protection.
- + Polarized Mirror Lens option.
- + 100% UVA/UVB Protection.
- + Twin-adjustable head strap.

Vapour

You won't know how soft and comfortable these goggles are until you try them. Ultra soft silicone combines with a great fit making them the perfect goggles for open water and pool training sessions. The large curved lenses give an excellent field of vision allowing you to carefully navigate your direction and spot any other swimmers. If you are unlucky enough to get hit during a mass participation swim then the ultra-soft silicone gaskets will cushion the blow, whilst also minimising pressure around the eyes keeping you comfortable during those long swims.

- + Ultra-soft silicone gaskets for comfort and protection.
- + Anti-Fog treated lenses and 100% UVA/UVB protection.
- + Large curved lenses for outstanding peripheral vision.
- + Easy adjust strap.
- + Unique & stylish colour options.

Vision-Max

For swimmers who are looking for comfort above all else, a mask style swim google is the perfect solution. The ultra-soft silicone seal sits on the forehead and below the eyes taking all pressure off the eyes and delicate eye sockets. The position and size of the seal also takes the impact of any stray limbs of other swimmers allowing the wearer confidence in mass starts and swimming in crowded waters that their mask won't get dislodged.

- + LUCID lenses with tinted finish and anti-fog treatment.
- + HORIZON wide angle lenses (180 ° Panoramic Vision).
- + Ultra-soft silicone seal for comfort and protection.
- + Low profile mask style design for minimal drag.
- + Scratch resistant lenses.
- + Split yoke strap.

Attack

Flexible in more ways than one; the Attack is the perfect goggles for both open water and pool swimming and the soft silicone frame, easy adjust straps and ultra-soft silicone gaskets means they fit perfectly on a wide variety of head and face sizes/shapes. If you are looking for comfort and performance, you can't go wrong with Attack Goggles.

- + Polarized Mirror Lens option.
- + LUCID lenses with tinted finish and anti-fog treatment.
- + HORIZON wide angle lenses.
- + Ultra-soft silicone gaskets for comfort and protection.
- + Thin silicone strap gives an "invisible" hold.
- + Available with eclipse photochromatic lenses.
- + 100% UVA/UVB protection

Silicone Swim Caps

High quality 48g Silicone Swim Cap which is designed to be comfortable with a snug fit, and easy to put on your hair. Available in a variety of colours to match our wetsuit cuffs. There are also yellow and orange options for enhanced visibility, or stylish colorful designs to match our swimwear.

Training Kit

Front Facing Snorkel

SA18FFS (Orange)

A streamline shaped, front facing snorkel to allow you to focus on technique without the need to worry about your breathing.

Ergo Hand Paddles

SA19EPAD113 (Blue)

Ergonomically shaped for optimal catch to develop upper body strength. A great workout with leg bands and buoyancy shorts.

Power Stroke Paddles

SA18CPAD (Blue/Orange)

Designed to develop hand positioning through the water, hi-vis orange on the inside gives a visual aid to the swimmer to help correct swim stroke technique - with thumb & index finger entering the water first.

Protective Swim Goggle Case

SA19GPC (Navy)

No more hunting around for your goggles at the bottom of your bag and having to replace them every season due to scratched lenses, it's time to start taking care of your goggles with a protective case.

Triathlon Apparel

No triathlon is won in the water which is why our tri apparel has been designed to help get you to finish line in the fastest time possible. Performance fabrics and design features ensure maximum comfort and breathability – helping you push harder.

COVERAGE

We carefully select the denier rating and compression of our fabrics so they offer optimum coverage for body confidence.

SILICONE LEG GRIPPERS

Positioned on the leg hem of each suit to prevent any movement of the shorts whilst also helping to prevent irritation. Unique design to offer just the right pressure.

PADS

All suits use Italian designed pads to minimise water absorption and provide protection during the cycling phase, without impeding your swim or run. Finesse stitching is used to ensure maximum comfort and avoid risk of chafing.

CONSTRUCTION

The suits use either an innovative glue-bonded seam structure or flat-lock stitching designed for maximum strength and comfort.

TOTAL ZIP PROTECTION

Each of our suits has had a lot of care and attention put into it, this includes the inner protection system which ensures no rubbing on the sharp edges along the zip.

FABRICS

We utilise the finest fabrics from all over the world to offer the highest performance and comfort during the swim, bike and run. Every product is tried and tested to ensure it meets our high standards. If it's not something our athletes would use, it's not something we'd sell.

POCKETS

Pockets have been carefully positioned onto some suits to store nutritional products or other race accessories whilst not creating excessive drag.

AERODYNAMICS

The suits use either an innovative glue-bonded seam structure or flat-lock stitching designed for maximum strength and comfort.

suit's drag and increases speed through the water.

ELASTIC TECHNOLOGY AND PIPING

Anatomically designed following flatlock or bonded construction for an unrestricted range of movement and reduced chafing. The fabrics are chosen on their performance and elastic properties further enhancing human body movement.

Aeroforce-X II

We have collaborated with **Nopin**, specialists in creating aerodynamically optimised cycling speedsuits, to develop the world's fastest trisuit.

European performance fabrics have been put through their paces under numerous conditions, including wind tunnel testing, to ensure each fabric selected utilises all the properties required to improve race times. 3D fabrics disrupt the airflow to cut through the air reducing drag, whilst ultra-lightweight and breathable fabrics, incorporated with ColdBlack technology is used across the body's core which is combined with a water repellent finish to give speed through the water.

These fabrics are also designed to increase the range of motion to reduce fatigue across the shoulders and helps to regulate the body's temperature during the bike and run. Targeted compression on the legs help reduce fatigue and aid recovery time and pads have come from the Italian experts.

Aeroforce-X II Short Sleeve Trisuit

Designed to be the World's Fastest Trisuit, the new Aeroforce X-II Trisuit has been fully tested in the wind tunnel, velodrome and by elite athletes. Exclusively manufactured in the UK, the suit features an innovative fit and fabric technology, including Speedscalez™, to maximise performance across each discipline. Utilising the facilities at the Boardman performance centre and Aerocoach (our aerodynamic partner) we have performed extensive fabric, pattern layout and competitor testing to help us produce the fastest possible bike time, without sacrificing swim and run comfort.

Lava

Designed and developed for long distance triathlons using the finest quality European fabrics with targeted ColdBlack technology to regulate temperatures with maximum breathability and freedom of movement. Our pads come from the Italian experts, Elastic Interface. These low profile pads, coupled with targeted foam structure, ensure comfort on the bike while draining quickly after the swim and being unnoticeable on the run. Integrated grippers that are woven into the fabric keep everything in place while being unnoticeable and restricting than standard sewn in grippers.

Lava Trisuit

The Lava suits boast an Impressive selection of features Including new sleek styling and ultra lightweight, breathable fabrics with ColdBlack technology. Aerodynamic fabrics on the sleeve and upper back disrupt airflow, helping to cut through the air quicker. The water repellent coating. will help to move through the water faster, and the graduated compression assists in getting the most out of each race.

Activate+

The activate plus collection is an evolution of our hugely popular activate range. It maintains value as a key feature, but introduces additional features and a touch of colour with stylish sublimation prints.

The key highlight in SS25 is a move to recycled materials, aligning with our broader goals to introduce sustainable materials into our product development wherever possible.

Men's Activate+ Short Sleeve Trisuit

- + Stylish sublimation printed side panels.
- + Lightweight and high stretch mesh back panels.
- + Short Sleeves for added coverage and aerodynamics.
- + Combines great value with high performance, quality and style.
- + Highly breathable fabrics for sweat management.
- + Full coverage and shape retention, no more see through moments.
- + Increased saddle comfort from variable-thickness pad.
- + Tri-lite pad
- + Storage pocket
- + UFO leg grippers

Men's Streamline Swimskin

SS18MSTL101 (Black/Red)

Women's Streamline Swimskin

SS18WSTL101 (Black/Purple)

Streamline Swimskins

Increased buoyancy, reduced drag and most important of all, more speed! The Zone3 Streamline Sleeveless Swimskin is the result of requests from athletes looking for extra core support and reduced drag during non-wetsuit swims. Uses hydrophobic fabric for maximum compression & minimum water absorption.

All-New Swimwear Range

Completely redeveloped for 2026, the all-new Core Swimwear range meets the growing demand for inclusive, performance-driven swimwear. Designed for both pool and open water use, this range combines everyday functionality with technical precision—offering improved fits, increased support, and a broader variety of cuts across an expanded size curve (UK 6–22).

Built with input from swimwear experts and tested by athletes, the collection is crafted using XFINITY Renew—a sustainable, high-performance fabric that's breathable, chlorine-resistant, fast-drying, non-see-through, and UPF 50+ rated.

With clear product segmentation, broad customer appeal, and strong technical credibility, the Core range offers a compelling commercial opportunity. Inclusive sizing, versatile design, and durable construction make it ideal for partners targeting a wide spectrum of swim consumers, from leisure swimmers to performance-focused users.

OWS Ti+ Swimwear

The Women's OWS Ti+ Thermal high neck costumes boast a Titanium lining in body which offers improved thermal efficiency. The costumes are 100% no neoprene but still offer the same warmth benefits. The centre rear zip fastening provides easy access. A high neck design increases warmth and coverage, while an inner bra shelf provides added support. The seams are concealed to provide maximum comfort against the body and supreme hydrodynamics.

The outer material is an extraordinarily glossy surface, which guarantees a perfect fit over time.

OWS Ti+ Range

- + Titanium lining in body for increased warmth.
- + Centre back zip fastening for ease of fastening.
- + High neck for increased coverage and warmth.
- + Inner bra shelf for added support.
- + Concealed seams for comfortable fit against body.
- + Front and back Titanium lining.

- + Structured design provides support and aids body position.
- + Second skin fit for the ultimate streamlined performance.
- + Hydrodynamic water repellent 'Performance Gold' fabric.
- + Targeted compression for increased muscular activation & performance.
- + Italian ultra-fine lining for comfort and coverage.
- + Gold colour flat-lock stitching for improved durability and comfort against the skin.

Racewear Range

FINA Approved Men's Performance Speed Jammers

SW18MFJS106 (Blue/White)

- + Hydrodynamic water repellent fabric.
- + Second skin fit for the ultimate streamlined performance.
- + Targeted compression for increased muscular activation & performance.
- + Structured design provides support and aids body position.
- + Flatlock stitching for improved durability and comfort against the skin.

A young boy with short brown hair is shown in profile, looking out towards the ocean. He is wearing a black Zone3 wetsuit with green accents and a black swim cap with a green strap. The background is a soft-focus view of the sea and sky. The text 'Kid's Range' is overlaid on the right side of the image.

Kid's Range

We have always been passionate about grassroots and understand how important those first experiences are. Our children's collection has been developed to the same standard as our adults range – offering perfect fit, supreme comfort and maximum performance.

Wetsuit

The Adventure wetsuit from ZONE3 is designed to provide quality and performance. It combines 1.5 – 4mm neoprene thicknesses and a panel design based on ZONE3's Advance adult wetsuit but with some slight adjustments to make it more age group specific.

Featuring an enhanced shoulder panel design, the Adventure has seen an upgrade to bring it line with ZONE3's best performing wetsuits, with an enhanced shoulder panel design using 1.5mm Yamamoto #39' a laser cut low neckline and hi-vis colourway.

Kid's Adventure Wetsuit

WS21KADV1L01
(Black/Green)

Trisuit

The children's Adventure range of tri-apparel is designed for those younger triathletes looking to get started at an early age. This range will hopefully help to encourage participation in multisport events and give new entrants to the market a high quality product but at an affordable price. Taking inspiration from the adult's collection, the Adventure is made using a Lycra sport fabric to ensure breathability, comfort and performance. Features include a children's specific Tri pad, easy-to-use front zipper, silicone UFO leg grippers and flatlocked stitching to ensure maximum comfort.

Children's Sizing: S (8-10), M (10-12) and L (12-14).
Kids top and shorts are not available

FIT TIPS:

- + Triwear should be tight fitting in order to fit under wetsuits and be streamlined throughout a race.
- + Some suits are made of water repellant fabrics which has little less stretch so if between sizes better to go one up.
- + The suit should feel tight, but if it constricts your breathing then you need to size up.

MEN'S SWIMSKIN SIZE CHART

SIZE	HEIGHT		WEIGHT		CHEST	
	CM	FT	KG	LBS	CM	IN
XS	157 - 170	5'2 - 5'7	54 - 60	119 - 132	81 - 86	32 - 34
