CP PREMIUM HELMETS

EUR

ABOUT CP

Since 2014, the visor helmet has been enjoying unbridled success in skiing. It is practical and comfortable and offers a much wider field of vision than ski goggles.

The all-in-one helmets from CP are unbeatable in terms of quality, innovation, comfort and style. A decisive contribution to this is made by the visors, which CP pays special attention to. Impressive optical quality goes hand in hand with first-class workmanship and maximum reliability in use on the slopes.

All CP helmets comply with the CE standard EN 1077.

THE CP TECHNOLOGIES

Carbon

High-end motor sport carbon for the track. The carbon models developed for CP come from the same production as the carbon parts of renowned Italian sports car manufacturers. Thanks to this know-how, the CP carbon models achieve incredible camber values at very low weight. Always paired with a unique clean look on the market.

ODSA System

The ODSA [Omni directional shock absorption] system reduces the risk of traumatic brain injury in the event of a fall or collision. All variants of the CORAO+ and COYA+ are equipped with the new ODSA system.

CLIMATE+ and CP TEX

The unique, CP-exclusive Climate+ ventilation system combines fully adaptive ventilation with the waterproof, breathable membrane CP-TEX, which prevents snow and water from entering the helmet interior. At the same time, it allows warm and humid air to escape. This keeps the climate inside the helmet dry and comfortable at all times.

CP Size Adapting System

With this system, fine adjustment via a rotating ring is effortless and accurate to the millimeter – without having to take off the glove.

Cashmere wool for maximum comfort

CP sources the exclusive wool for our cashmere lining from Italy's world-renowned cashmere processor Loro Piana.

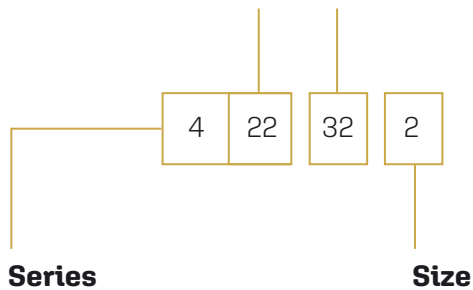

Sustainability through recycling

CP is known as a pioneer in many technical components. Now CP also wants to promote the topic of sustainability and offers recycled components in selected models.

THE CARACHILLO SERIES

Reduced to the essence. Everything you need – inside and out. The CARACHILLO delivers outstanding protection combined with a minimum of both size and weight.

CARACHILLO

	CP CARACHILLO Carbon	CP CARACHILLO Cashmere / Vintage	CP CARACHILLO	CP CARACHILLO XS
Description	Lightweight, lighter, CARACHILLO. The attractive carbon shell is a true featherweight and ensures optimal protection. The ear pads can be removed for more freedom on the run.	Cashmere: Pure Cashmere is responsible for the highest amount of comfort. Cubic: A laborious refining process generates the cubic look on the helmet – every single one is unique!	Shiny, cheeky, colorful. The huge range of bold colors makes this helmet a true eye catcher on every slope. In terms of security and fashion. Each version can be combined with three different kinds of visors.	Great moments for small heads. The XS version is designed for juveniles and adults with narrow heads. The wide range of colors offers the right helmet for every youngster and every lady.

THE CP VISORS

The heart of the All-in-One helmet. CP offers a wide range of exclusive high-quality visors in various tints and specifications.

Sizes: Three unique shapes of visors are the result of the individuality of different physical characters.

- FIT 1,6** visor rounded off at the bottom with slightly bigger field of vision
- FIT 2,7** flattened at the bottom, compact design
- XS** for teenager and adults with a narrow head

Polarization: The unique polarizing visor reduces the dazzling reflection on the track and provides a stress-free ski run.

Vario lenses: Within rising brightness, the innovative CP Vario Lenses darken the visor and emerge the contrast during bad weather conditions.

Protection level: All CP Visors come along with 100% uv-protection. In terms of transparency they differ in tint and reflexion. The chart explains the protection levels of the visor.

VISORS
